UPDATED Trinity County Coronavirus (COVID-19) Health Advisory

TRINITY COUNTY – This evening, October 3, 2020, Trinity County Public Health Branch (TCPHB) received lab confirmation of two (2) additional persons who tested positive for COVID-19 in Trinity County, linked to the 5 cluster cases previously reported earlier today.

The TCPHB COVID-19 Surveillance and Control Team (SCT) continues its case investigation and contact tracing related to this cluster of cases. All close contacts and other exposed persons will be quarantined and monitored for symptoms by PHB-SCT. We want to remind our residents to please respond to correspondence and calls from TCPHB as required for case investigation and contact tracing. Isolating those that test positive and quarantining those exposed is the way we contain spread of the virus in Trinity County.

As a reminder, the need to practice social distancing of at least 6 feet, frequent hand washing and sanitizing of surfaces, as well as wearing a face covering as mandated by the California Department of Public Health (CDPH) and the Governor's Office, remains essential in preventing the spread of COVID-19. TCPHB continues to work closely with CDPH, advocating for expanded testing access for Trinity County residents.
