

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Other: Coggins Flat Dredge Pilings	This historic resource consists of several dredge piles. The resource was never formally recorded; however, the resource was determined Ineligible for the NRHP in a letter dated 9/15/2010.	Y (NRHP) Y (CRHR)	6 (NRHP) 6 (CRHR)	None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
Other: Eureka Streetcar System	This unrecorded resource consisted of a horse-drawn streetcar line established in 1888, which runs from 5th Street along E Street to Trinity Street. The rail system expanded and in 1903 the horse-drawn cars were replaced by electric cars. The streetcars were in operation until 1940 when a bus system replaced the streetcars.	Unevaluated		Cultural monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection. Cultural monitoring along E Street, Myrtle Avenue, the intersection of Del Norte and E Streets, Del Norte and I Streets, and 14th and I Streets where the APE intersects the resource.
Other: French Gulch Historic District	Town of French Gulch, founded by French-Canadian miners in 1849. Principal historic buildings include a store, a church, a hotel, an I.O.O.F. Hall, a cabin, and other commercial buildings. Structures date from 1854 to ca 1913.	Y (NRHP) Y (CRHR)	1 (NRHP) 2 (CRHR)	None—the district would be avoided by the project.
Other: P-416 CA-030-2249	This historic resource consists of a segment of an earthen water conveyance ditch running approximately 176 feet north/south below (east of) Lower Road/Powerhouse Road.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located on the opposite side of the road and will be avoided.
Tauzer #2/Cupule Boulder	This prehistoric resource is a TCP located outside the ground disturbing footprint of the APE but is within viewshed of the APE. The TCP is the site of an annual ceremony.	Not Applicable/ TCP		This a sacred TCP. It is the location of prayers and other activities during the World Renewal Ceremony. No construction occurs in the vicinity of the site, and no equipment be left in the viewshed of the site during these ceremonies.
Other: Wharf Railroad	This unrecorded resource consists of the Wharf Railroad that once ran along what is now South 1st Street from the bay over Hauser Marsh to the Plaza at 8 th Street.	Unevaluated		Cultural monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Other: Whiskeytown Visitor Center	This historic resource consists of the Whiskeytown NRA Whiskeytown Visitor Center. SHPO concurred Eligible to NRHP in a letter dated 12/9/2016.	Y (NRHP) Y (CRHR)	1 (NRHP) 2 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Agency ID: CA-030-1560 Other: Gartland Ditches	Two water-conveyance ditches constructed in 1863 by Bernard Gartland for the Shea and Company Quartz Claims. (Site record and GIS list the incorrect primary and trinomial number)	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Agency ID: CA-030-2178 Other: Brown Bear Ditch	Historic mining ditch with water tanks at the eastern end, and an adit at its western side. (2019 survey confirmed outside of APE.)	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Agency ID: FS: 05-10-53-17 Other: Acorn Townsite; PR-11	Possible historic townsite of Acorn. Fruit trees and water tower only standing remains.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Agency ID: FS: 05-10-53-301 Other: Chert Quarry	This prehistoric resource consists of a chert quarry and a light lithic scatter.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Agency ID: FS: 05-10-53-314 Other: Sugar Bowl Ranch Ditch	Ditch segment and two races.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Agency ID: FS: 05-10-53-321; 05-14-54-225 Other: Denny Road	This historic resource consists of Denny Road, also called New River Road and Road 402.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the resource has functioned as a road since its construction, and the construction method, boring, would entirely avoid the resource.
Agency ID: FS: 05-10-53-322; 05-14-54-226 Other: Denny Telephone Line	This historic resource consists of the remains of the Denny Telephone Line. Only a few wires and insulators remain.	Y (NRHP) Y (CRHR)	6 (NRHP) 6 (CRHR)	None—the construction method, boring, ensures avoidance of the site ensuring preservation of the resource.
Agency ID: FS: 05-14-54-6	This prehistoric resource consists of a lithic scatter at Carpenter Ranch.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Agency ID: FS: 05-14-54-90 Other: Hidden Lake Ditch	Historic ditch from Hidden Lake to homesteads north on private property.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug edge of road (EOR)—this ensures avoidance of the site.
Agency ID: FS: 05-14-54-91 Other: Big Lake Indian Site	Small surface scatter of chert debitage adjacent to Big Lake.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	1. Avoid—move the line to the opposite side of the road. 2. Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Agency ID: FS: 05-14-54-93 Other: Croskrey's Big Lake Cabin	Site of a small cabin apparently dating to the early 1900s.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Agency ID: FS: 05-14-54-95 Other: Lake View Indian Site	Possible lithic workshop located adjacent to Big Lake.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	1. Avoid—move the line to the opposite side of the road. 2. Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Agency ID: FS: 05-14-54-98 Other: Hidden Chert Quarry	Large scatter of chert debitage and cores, possibly a quarry.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Agency ID: FS: 05-14-54-110	This historic resource consists of the Don Juan Mule Bridge.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Agency ID: FS: 05-14-54-127	This prehistoric site was described in the original 1983 site record as a "possible prehistoric base camp." Although the site is mapped outside the APE, STNF has stated the portion of the alignment near this site is archaeologically sensitive and must be subjected to presence/absence test excavation prior to construction activities to determine a finding of effect.	Unevaluated		Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection
Agency ID: FS: 05-14-54-142 Other: Canadian Connection Trail	This historic site consists of an historically used trail known as the Canadian Connection Trail, accessing the ridge east of Chaparral Mountain with the Willy Jack Trail (FS: 05-14-54-111) and Canadian Creek Trail (unrecorded) that comes out at Del Loma.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Agency ID: FS: 05-14-54-148 Other: Chaparral-Eagle Trail	Historic trail accessing the ridge lines from east to west between Chaparral Mountain and the Eagle Rock vicinity. Parts of it were also utilized prehistorically. Indians frequently used ridgelines when travelling, and at least one prehistoric site is located along this trail (05-14-54-139). Trail is noticed on a 1915 USFS map.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Agency ID: FS: 05-14-54-149	This historic site consists of the remains of the USFS Eagle Rock Lookout. The record is accurate but the site was misplotted in GIS. A new point was taken at the site location. However, the Eagle Rock Lookout no longer exists as it burned down during a recent forest fire. An update was prepared.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Burned down, no longer present. 1. Pre-construction archaeological survey to determine if site constituents are present at the ground surface. 2. Cultural monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection
Agency ID: FS: 05-14-54-261	This prehistoric resource consists of a village site with 10 possible house pits.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Archaeological and tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable Project-wide to ensure resource protection.
Agency ID: FS: 05-14-54-277 Other: Mike’s Prehistoric Site	Lithic scatter (No actual DPR site record—just pictures and GIS.)	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Agency ID: FS: 05-14-54-295 Other: HT-12	A single episode refuse deposit located on an approximately 40-degree south-facing slope immediately downslope of Corral Bottom Road within a portion of the APE of power line structure 66/004 for the Humboldt-Trinity 115-kV transmission line.	Y (NRHP) N (CRHR)	6 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Agency ID: FS: 05-14-54-298 Other: Humboldt-Trinity 115kV Transmission Line	The Humboldt-Trinity 115-kV transmission line extends 70 miles from Humboldt Substation in the east to Trinity Substation in Weaverville, California. The three-phase transmission line uses a mixture of original and replacement wood and metal towers. Construction completed in 1952.	Y (NRHP) Y (CRHR)	6Z (NRHP) 6 (CRHR)	None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
Agency ID: FS: 05-14-54-583 Other: Schlomer and Meckel Placer Mine	A large hydraulic mine where soil has been washed and removed down to bedrock up to 120 feet below the original surface. It is located on both private and STNF properties.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Agency ID: FS: 05-14-54-584 Other: Osborn Placer Mine	This site is referred to as the "Osborne Placer Mine" based on a 1927 Reconnaissance Map of the Schlomer Placer Mine depicting the Osborne Hill Placer Mining Claim and Osborn Patent Lot No. 41.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Agency ID: FS: 05-14-54-585 Other: Manzanita Creek Ditch	Three segments of the Manzanita Creek Ditch, which was the main source of water for the Howard and Campbell Placer Mine (P-53-001354).	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Agency ID: FS: 05-14-54-586	A segment of historic water conveyance ditch associated with an adjacent hydraulic escarpment.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Agency ID: FS: 05-14-54-588	Two segments of water conveyance ditch that appear to serve placer mining operations at the eastern end of Big Flat (P-53-002304). Portions of FS: 05-14-54-589 falls within this ditch.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Agency ID: FS: 05-14-54-589	A historic refuse deposit dating to the 1940s and 1950s. Refuse was brought up the historic Big Flat-Helena Trail (05145400208) and discarded over the hillside. Much of the refuse lies within the historic ditch (05145400588).	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Agency ID: FS: 05-14-54-601	This historic-era resource consists of a ditch segment approximately 350 feet in length.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Agency ID: FS: 05-14-56-349 Other: Yet Another Ditch	This historic resource consists of a ditch.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Agency ID: FS: 05-14-56-463 Other: West Weaver Ditch	Historic water transmission that drew water out of West Weaver Creek and transported it to an unknown destination. The ditch measured 6 feet wide at the top by 3 feet wide at the bottom. It was 2 feet deep and had a 3-foot-wide berm. It was approximately 1.25 miles long.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Trinomial: CA-HUM-29	Ethnographic village site	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Trinomial: CA-TRI-1009 Agency ID: FS: 05-14-54-139 Other: Fraggles Rock	Surface scatter of obsidian and chert debitage as well as cobbles. Possible seasonal hunting and/or gathering camp.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Trinomial: CA-TRI-1351H Agency ID: FS: 05-14-54-213 Other: Powerline Camp II; Western States Gas and Electric Power Line	Power line installed in 1915. A telephone line and maintenance trail also followed this route. In addition, cabins to house workers doing maintenance were located approximately every 3 miles. This system furnished power to the city of Eureka and was also intended to power the trolley car system.	Y (NRHP) N (CRHR)	6 (NRHP) 7 (CRHR)	None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
Agency ID: IF-WHIS-1998-50	This historic resource consists of a segment of the old alignment of Old Trinity Mountain/French Gulch Road. This resource was never formally recorded; however, it was determined Ineligible for the NRHP.	Y (NRHP) Y (CRHR)	6 (NRHP) 6 (CRHR)	Hug EOR—this ensures avoidance of the site.
Agency ID: IF-WHIS-2002-09	This historic resource consists of several segments of a possible ditch. This appears to have not been formally documented.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Agency ID: WHIS-2008-01	This historic resource consists of an historic road.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-000053 Trinomial: CA-HUM-1449 Other: Arcata-Hoopa Trail; Fort Gaston Trail	This historic resource consists of an overland trail connecting Hoopa to Arcata through Blue Lake and Redwood Valley (Hoopa Valley Reservation).	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-000083 Trinomial: CA-HUM-25 Other: Loud 25	This prehistoric resource consists of an Ethnographic village site. No evidence of the resource was noted within the Caltrans' ROW.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-12-000084 Trinomial: CA-HUM-26 Other: Loud 26; Lekaliwil; Sgekeliwisg	This prehistoric resource consists of an extensive shell mound with midden, lithics, and possible housepits.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-12-000085 Trinomial: CA-HUM-27 Other: Loud 27	This prehistoric resource consists of an ethnographic village site.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-12-000097 Trinomial: CA-HUM-39 Other: Loud 39; mipa't	This prehistoric resource consists of a village occupied up to at least 1850.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-000103 Trinomial: CA-HUM-45 Other: Loud 45	This prehistoric resource consists of a lithic scatter.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-12-000229; P-53-000429 Trinomial: CA-TRI-429/H; CA-HUM-204/H Agency ID: FS: 05-10-53-143 Other: Leldin; Hlel-tin; Hlah Tung	This multicomponent resource consists of the remains of a large southern Hupa village “Hlel-tin” with midden and housepits, FCR, and artifacts diagnostic of the Early, Middle, and Late periods. Six Historic-era Native American burials are reported; also contains the remains of old USFS District Office. A private residence is within the site boundaries. The site is also the Historic-era location of a mining claim and a lumber mill.	Y (NRHP) Y (CRHR)	2S (NRHP) 2S (CRHR)	Bore to avoid and ensure preservation of the resource. Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-12-000122 Trinomial: CA-HUM-64 Other: Loud 64	The site record only says "Neither occupied nor named by recent Wiyot" (Loud 1918). Likely prehistoric village site located on Daby Island.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-12-000179 Trinomial: CA-HUM-122 Other: Loud's #2	This prehistoric resource consists of a shell midden mound. The resource has likely been destroyed as it has not been relocated since the construction of U.S. Highway 101.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—this site is destroyed within the APE and is no longer present.
Primary: P-12-000194 Trinomial: CA-HUM-169 Other: Tsu'rai; California Landmark 838	This prehistoric/protohistoric resource consists of Tsurai, a southern Yurok settlement containing fourteen houses and two sweathouses. HRI# 089499; SHL-0838-00000	Y (NRHP) Y (CRHR)	1CL (NRHP) SRL 838 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-000221 Trinomial: CA-HUM-196/H Other: Taltsasdin; Tol-Skats-A-Tung	Historic Hupa (Hoopa) village. Based on the two accession numbers listed, it appears that two artifacts were collected from this site. No additional details are provided in the record (Hupa Valley Reservation).	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-12-000334 Trinomial: CA-HUM-321	This prehistoric resource consists of a shell mound, midden, and lithic scatter. (A portion is owned by Blue Lake Rancheria.)	Y (NRHP) N (CRHR)	3S (NRHP) 7 (CRHR)	Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-12-000353 Trinomial: CA-HUM-340	This resource consists of a fenced-in (presumably) historic cemetery. No additional details are given (Hupa Valley Reservation).	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-000357 Trinomial: CA-HUM-344/H	This resource consists of a dance area; however, the site record noted that the area "looks just like woods." No additional details are provided (Hupa Valley Reservation).	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-000363 Trinomial: CA-HUM-351/H Other: C-804	This multicomponent resource consists of a flake scatter and historic refuse debris.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-12-000365 Trinomial: CA-HUM-355	This prehistoric resource consists of a large occupation site at the junction of Jacoby Creek.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-12-000368 Trinomial: CA-HUM-358	This prehistoric resource consists of FCR and midden on an old river terrace.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-000441 Trinomial: CA-HUM-433/H	Historic Native American burials, old road from Willow Creek to Hoopa, segments of riveted iron mining flume.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-000518 Trinomial: CA-HUM-515 Other: Widow White Heights	This prehistoric resource consists of a light density lithic scatter.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-000815 Trinomial: CA-HUM-827H Other: CHL #842	Portions of Arcata and Mad River Railroad.	N (NRHP) Y (CRHR)	7 (NRHP) 1CL (CRHR)	Segment 2: Cultural construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection. Segment 3 is located on the opposite side of the road and will be avoided by default.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-12-000817 Trinomial: CA-HUM-829H Other: GD-3H	This historic resource consists of a remnant of a cut railroad grade which approached the former townsite of Vance, later know as Essex.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the construction method, boring, ensures avoidance of the site, ensuring preservation of the resource.
Primary: P-12-000987 Trinomial: CA-HUM-1021 Other: Bedrock Cupule	This prehistoric resource consists of a greywacke bedrock outcrop with two ground or pecked faces with nine observable cupules each (total of 18).	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-001140 Trinomial: CA-HUM-930 Other: Glendale Exit Site	This prehistoric resource consists of a housepit depression, midden, and lithic scatter. (2019 survey confirmed outside of APE.)	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the construction method, boring, ensures avoidance of the site, ensuring preservation of the resource.
Primary: P-12-001410 Trinomial: CA-HUM-1054 Other: 101 Bremm Site	Prehistoric midden with lithics and FCR.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-001529 Other: 185 Harsh Court	Small single-story residence, Minimal Traditional, built ca 1940.	Y (NRHP) N (CRHR)	6Z (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-001531 Other: 230 Lupin Dr.	Small single-story residence, Minimal Traditional/Ranch style, built ca 1950.	Y (NRHP) N (CRHR)	6Z (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-001532 Other: 183 Harsh Court	Small single-story residence, Minimal Traditional, built ca 1940.	Y (NRHP) N (CRHR)	6Z (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-001533 Other: 187-189 Harsh Court	Multiple-family duplex, single-story residence, Minimal Traditional, built ca 1950.	Y (NRHP) N (CRHR)	6Z (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-001854 Trinomial: CA-HUM-1106 Other: CRF-TRO-01	This prehistoric resource consists of a large lithic scatter.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR; this ensures avoidance of the site.
Primary: P-12-001987 Other: McKay and Company Railroad—Ryan Creek	This historic resource consists of the route of the McKay and Company Railroad that ran 7 miles up Ryan Creek and Ryan Gulch as well as skid trails where steam donkeys dragged logs.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—this site is destroyed within the APE and is no longer present.
Primary: P-12-002236 Trinomial: CA-HUM-1431/H Other: Hungry Hollow Road Site	This multicomponent resource consists of a dirt road that has been constructed through a prehistoric lithic scatter and historic artifacts.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-002403 Other: Bald Mountain Historical Trail	This historic resource consists of a trail that was used to travel from Arcata to the Trinity River area.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-002416 Other: California Barrel Company Long Prairie Creek Railroad	California Barrel Company Railroad grade and associated features, camps, and spurs.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-12-002475 Other: JHU-021	This historic resource consists of a segment of the Northern Pacific Railroad, Samoa Branch.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-12-002480 Other: CRF-LC2011-01	This historic resource consists of residual lumber supports from a historic trestle bridge.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—this site is destroyed within the APE and is no longer present.
Primary: P-12-002520 Other: Poff Property Buildings	Historic property containing nine buildings: dairy barn, small residence, ranch-style home with detached garage, pumphouse, outhouse, and three sheds (Blue Lake Rancheria Tribe).	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-002536 Other: FH-101H	This historic resource consists of s discrete secondary refuse deposit dating from ca 1930 to 1950.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-12-002560 Other: McPherson #2 old house site	This prehistoric resource consists of a light-density lithic scatter with pestles. Site artifacts were donated to the Bear River Band of Rohnerville Rancheria.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-002585 Trinomial: CA-HUM-1130H Other: JHU-023	This Historic-era resource consists of a segment of unpaved road, located adjacent SR, which appears to be a wagon-era road grade.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-12-002605 Trinomial: CA-HUM-1156 Other: Arcata Land Improvement 1893 Dike	This historic resource consists of a dike constructed in 1893 to reclaim marsh land. Some portions have been incorporated into the Arcata Marsh and Wildlife Sanctuary and is no longer evident, while other portions have been extensively modified and built up with concrete. Two dike segments accompany this record, the Humboldt Bay Dike and McDaniel Slough Dike.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-002609 Trinomial: CA-HUM-1158H	This historic resource consists of a rock-lined pit that likely functioned as a sump related to an Indian Boarding School and Public School (1893 to 1955). A reinforced concrete cap once covered the sump; however, it was removed and taken to a dumping area. A portion of the sump was excavated and recovered 80 artifacts, including glass trade beads, a marble, two plastic hair combs, an aluminum token coin, pencil lead, colored string, possibly worked bottle glass fragments, and a machine-made pharmacy bottle (Hupa Valley Reservation).	Y (NRHP) Y (CRHR)	3 (NRHP) 3 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-12-002628 Other: Plywood Mill	This historic resource consists of a large mill complex containing 5 buildings at 1017 to 1117 Samoa Boulevard.	Y (NRHP) N (CRHR)	6Z (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-002629 Other: 1076 Samoa Blvd.	Single story U-shaped apartment complex, contemporary, built ca 1950.	Y (NRHP) N (CRHR)	6Z (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-002633 Other: Samoa Site 5	This prehistoric resource consists of the remnants sand dunes midden with shell and lithics and Historic-era debris.	Y (NRHP) N (CRHR)	3D, 3CD (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-002635 Other: High Yard	This historic resource consists of the High Yard, developed in the mid-1950s to store stacked lumber.	Y (NRHP) N (CRHR)	6Z (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-002640 Other: Samoa Historic District	This historic district consists of distinct areas that were historically associated with different aspects of redwood lumber milling and with the operation of a company town; includes approximately 227 resources.	Y (NRHP) Y (CRHR)	3S (NRHP) 3CS (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-002663 Trinomial: CA-HUM-1167H Other: Freshwater Railroad; Pacific Lumber Co. RR	This historic resource consists of segments of an abandoned railroad grade.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hugging the EOR will ensure avoidance of the railroad grade and ensure preservation of the resource.
Primary: P-12-002803 Other: 139 Sunset Avenue	One of 26 family homes built between 1920 and 1923 for the Hammond Lumber Company, mostly bungalow in style.	Y (NRHP) N (CRHR)	3D, 3CD (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-002804 Other: 140 Sunset Avenue	One of 26 family homes built between 1920 and 1923 for the Hammond Lumber Company, mostly bungalow in style.	Y (NRHP) N (CRHR)	3D, 3CD (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-002805 Other: 140 Sunset Avenue	An outbuilding (garage) for one of 26 family homes built between 1920 and 1923 for the Hammond Lumber Company, mostly bungalow in style.	Y (NRHP) N (CRHR)	3D, 3CD (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-002916 Other: Samoa Railroad System	This historic resource consists of three main tracks which run through the town of Samoa.	Y (NRHP) N (CRHR)	3D, 3CD (NRHP) 7 (CRHR)	Avoid: Bore beneath railroad grade. This will ensure the site is avoid and will not be adversely impacted.
Primary: P-12-003043 Trinomial: CA-HUM-1469/H Other: Essex 1	Prehistoric lithic scatter and historic refuse scatter.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003050 Other: Arcata Substation Control Building	Arcata Substation Control building is a simple gable-roof metal frame prefabricated structure.	Y (NRHP) N (CRHR)	6Z (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003142 Trinomial: CA-HUM-1495H Other: Hammond Lumber Railroad	This historic resource consists of two segments of standard gauge railroad with intact railroad grade, ties, and rails.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Avoid: Bore beneath railroad grade. This will ensure the site is avoid and will not be adversely impacted.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-12-003167 Trinomial: CA-HUM-1502H Other: Road from Gaston to Weaverville; Humboldt Mail Trail	This historic resource consists of a segment of what appears to be an abandoned wagon-era road cut.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003390 Trinomial: CA-HUM-1592H Other: DeVoy Road	This historic resource consists of a road that is depicted on the 1933 Eureka USGS topographic map.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003391 Trinomial: CA-HUM-1593H Other: FW-3	This historic resource consists of a dike and overflow channel that is partly concrete lined.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003402 Other: Eureka Historic District	This historic district consists of Eureka “Old Town” historic district and includes over 215 resources, 161 of which are contributing elements to the NRHP.	Y (NRHP) N (CRHR)	1 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003462 Other: MC-H 01	This historic resource consists of a concrete bridge on Highway 96 (Hoopa Valley Reservation).	N (NRHP) N (CRHR)	7R (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003469 Other: MC-H 08	Historic gasoline motor powered yarder used for cable logging.	N (NRHP) N (CRHR)	7R (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003470	This non-prehistoric resource consists of a redeposit of shell midden. This is not a resource.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—this is not a site.
Primary: P-12-003579 Other: Dias Farm; MR 2	This historic resource consists of the Dias Farm at 2202 Old Samoa Road. Resource consists of 40 acres with seven buildings.	Y (NRHP) Y (CRHR)	3D (NRHP) 3 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003580 Other: Arcata Bottom; MR 3	This historic district consists of the Arcata Bottom, an Agricultural District, particularly dairy farming.	Y (NRHP) Y (CRHR)	3S (NRHP) 3 (CRHR)	None—the site is Ineligible or the NRHP/CRHR and is not a historic property.
Primary: P-12-003609 Other: Arcata Spur of Humboldt Northern Railway	This historic resource consists of the Arcata Spur of Humboldt Northern Railway, which is now just a raised grade through pasture lands with some rails still in place.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
Primary: P-12-003653 Other: Bayside Presbyterian Church	This historic resource consists of gable-roof church built around 1899.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003654 Other: John Berry House	This historic resource consists of a one-and-a-half-story house built around 1884.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003655 Other: Campbell-Smith-Monroe House	This historic resource consists of a house built in stages between around 1871 to 1897.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003656 Other: Clendenin House	This historic resource consists of a one-story house built around 1894.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-12-003657 Other: Al and Mary Johnson House	This historic resource consists of a one-story house built around 1902.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003658 Other: Charles Monahan-Dexter House-Fifth and Present Bayside Post Office	This historic resource consists of a two-story house built around 1887.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	Avoid: Bore beneath railroad grade. This will ensure the site is avoid and will not be adversely impacted.
Primary: P-12-003659 Other: Clifton Wilson Water Tower	Clifton Wilson Water Tower on Myrtle Avenue.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003660 Other: Connors-Lawlor-Wilson House	This historic resource consists of a two-story house built around 1876.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-12-003661 Other: Davis Oscar-Nellist House	This historic resource consists of a house built around 1904.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003662 Other: Dolbeer and Carson School-Matheson House	This historic resource consists of a one-and-a-half-story house first used as a school and built around 1876.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003663 Other: Francis Henry House	This historic resource consists of a house built around 1885.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003664 Other: George Graham House	This historic resource consists of a single-story house built in 1903.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003665 Other: George Pinkerton-McAlister Barn	This historic resource consists of an English-style barn built around 1883.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003666 Other: George Pinkerton-Montgomery-Williamson Barn	This historic resource consists of a red barn built around 1919.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003667 Other: George Pinkerton-Montgomery-Williamson House	This historic resource consists of a one-story house built around 1883.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003668 Other: George-Mitchell House	This historic resource consists of a one-story house built around 1877.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003669 Other: Gideon Spinney House	This historic resource consists of a one-and-a-half-story house built around 1887.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-12-003671 Other: J. Venning Nellist-William Zucar-Amy Smith House	This historic resource consists of a house possibly built in stages around 1889.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003672 Other: James Henry House	This historic resource consists of a one-story house built around 1903.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003673 Other: Jim Noble House	This historic resource consists of a one-and-a-half-story house built around 1894.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003674 Other: John Pinkerton House	This historic resource consists of a one-story house built around 1903.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003675 Other: Joseph Spinney House	This historic resource consists of a one-and-a-half-story Cape-Cod-style house built around 1888.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003676 Other: Kirkham-Chandler-Spaght House	This historic resource consists of a house built around 1900 that has had extensive alterations.	Y (NRHP) N (CRHR)	6 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003678 Other: Long-Graham House	This historic resource consists of a two-and-a-half-story house built around 1871.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003679 Other: McAdam-Barwise-Will McFarland House; Second Bayside Post Office	This historic resource consists of a one-and-a-half-story house built around 1884.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003681 Other: Rhodes-Marsh house and Trinidad Water Tower	This historic resource consists of a house built around 1930 (Not Eligible) and a water tower (Eligible).	Y (NRHP) N (CRHR)	3, 6 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003682 Other: Second Clifton Wilson House	This historic resource consists of a house built sometime after 1926.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003683 Other: Stephen Wilson Home	This historic resource consists of a house built around 1903.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003684 Other: Viale House	This historic resource consists of a one-story bungalow built around 1915.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003690 Other: ARS 76-65-11; C-18	This prehistoric resource consists of a flake scatter and one hopper mortar.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—given the ongoing use of the road and the resource being destroyed within the APE, integrity of the resource is nil.
Primary: P-12-003692 Other: ARS 76-65-13; C-20	This prehistoric isolate is a biface. A 2017 update was unable to relocate the artifact.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-12-003768 Other: William Stephens House	This historic resource consists of a two-story New-England-style house built around 1895.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003770 Other: Bayside Community Hall	This historic resource consists of a classic-style building built in 1882.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-12-003805 Other: Jacoby Creek Bridge	This historic resource consists of a spandrel, reinforced concrete, earth-filled arch bridge built before 1928. Jacoby Creek Bridge 04C0182	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	Avoid: Bore beneath railroad grade. This will ensure the site is avoid and will not be adversely impacted.
Primary: P-12-003848 Other: Angel Ranch Archaeological District	This district consists of eight individual sites, concentrations, and a background scatter.	Y (NRHP) N (CRHR)	3S (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003849 Trinomial: CA-HUM-1731 Other: Tauzer #1	This prehistoric resource consists of a dense lithic scatter.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003850 Trinomial: CA-HUM- Other: Tauzer #2	This prehistoric resource consists of a cupule boulder with approximately 50 conical and ovoid cups.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-12-003856 Other: Angel Ranch Historic District	This district consists of a rural historic landscape shaped by cattle ranching on the open pasture. Elements include a new ranch house, former ranch house that was rebuilt in the 1960s, seven feed barns, and other out buildings.	Y (NRHP) N (CRHR)	6Z (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-000192; P-45-000479 Trinomial: CA-SHA-192; CA-SHA-479/H Other: Towerhouse National Register Historic District	Prehistoric midden overlaid by Gold Rush-era features, including the Camden House built in 1852 and associated outbuildings.	Y (NRHP) N (CRHR)	1 (NRHP) 7 (CRHR)	Cultural monitors required by WNRA for a distance of 1300 feet along Trinity Mountain Road north of 299 junction to ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-45-000195 Trinomial: CA-SHA-195/H Other: Tower House National Register Historic District; NRIS #73000257	Multicomponent site with a sparse lithic scatter and possible midden, historic toll road, can dumps, possible “chili mill” wheels, tailings, and rock walls. A parking lot and bathroom have been constructed on-site.	Y (NRHP) Y (CRHR)	1S (NRHP) 1S (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-45-000201 Trinomial: CA-SHA-201	This prehistoric resource consisted of a large village located on the north bank of Grizzly Creek. It is now completely submerged under Whiskeytown Lake.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-000224 Trinomial: CA-SHA-224/H Other: Bell’s Mansion Prehistoric; Bell’s Bridge; OHP #090377; SHL-0519-0000	Multicomponent site with midden, lithic scatter, ground stone, faunal remains, and reported burials. The historic portion is the foundation/structural remains of the Bell’s Mansion, Oaks Ranch, and Lowry Ranch. The original bridge spanning Clear Creek was replaced by the modern Highway 273 bridge in the 1990s.	Y (NRHP) N (CRHR)	3S (NRHP) 7L (CRHR)	None—the resource will be avoided by the construction method, boring, within the existing road ROW.
Primary: P-45-000548 Trinomial: CA-SHA-548 Other: 299W-II	This prehistoric resource consists of a sparse lithic scatter, including obsidian debitage. The site was heavily impacted and possibly destroyed by Highway 299 widening in the 1970s.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-000549 Trinomial: CA-SHA-549H Other: Welcome Mining Complex	A small, level valley littered with numerous piles of rock (mining tailings) which are remains of historic mining operations.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-45-000550 Trinomial: CA-SHA-550 Other: 299W-4	This prehistoric resource consists of a very light density obsidian lithic scatter. Likely destroyed by Highway 299 widening in the 1970s.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-45-000734 Trinomial: CA-SHA-734 Other: Crosstown Waterline Site #4	This Historic-era resource consists of a small, individual family backyard-style dump.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. The resource will be avoided by the construction method, boring, within the existing road ROW.
Primary: P-45-001351 Trinomial: CA-SHA-1351H Agency ID: CA-030-148 Other: French Gulch #4; TS-3	This Historic-era resource consists of two concrete foundations with structural debris and roads associated with the former Sybil Mine Mill. An ore bin recorded in 1982 has since burned.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-001352 Trinomial: CA-SHA-1352H Agency ID: CA-030-149 Other: French Gulch #5; TS-4	A water ditch and shallow prospect. The formerly recorded wooden flume and sluice box appear to have burned in the 2004 French Fire. Site may be associated with nearby Sybil Mine features (CA-030-0148).	Y (NRHP) N (CRHR)	6 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-45-002165 (P-45-002398) Trinomial: CA-SHA-2165H Agency ID: CA-030-555, CA-030-569, CA-030-570, CA-030-1085, CA-030-1100, CA-030-1373. Other: Clear Creek Ditch; Middle Creek Segment; WHIS-19-002; Lower Springs Segment	Major historic water conveyance ditch known as the Clear Creek Ditch. Several segments and associated features have been recorded over the years. Segments A through C have been evaluated at Ineligible for the NRHP. SHPO concurrence letter 6/29/2018.	Y (NRHP) Y (CRHR)	6Z (NRHP) 6 (CRHR)	None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
Primary: P-45-002291 Trinomial: CA-SHA-2291H Agency ID: CA-030-579 Other: Niagara Mill	Ore mill with concrete structure pad, tailings, a tailings pond, a small dam, road segments, and a trash dump. (2019 survey confirmed outside of APE.)	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-002391 Trinomial: CA-SHA-2391H Agency ID: CA-030-576 Other: Shasta to Red Bluff Road Segment	Two-kilometer dirt segment of historic Shasta-Red Bluff road. A few artifacts located at a stream crossing.	Y (NRHP) N (CRHR)	6 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-002663 Trinomial: CA-SHA-2663H Agency ID: CA-030-1075 Other: Locomobile Site	Historic mining camp dating to ca 1950s consisting of three trash dumps, pits, probable arrastra stones, and automobile parts from a Locomobile and two other vehicles.	Y (NRHP) N (CRHR)	6Z (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-002665 Trinomial: CA-SHA-2665H Agency ID: CA-030-1077 Other: Ditch #4 Camp	Historic debris and a milled board scatter situated along a water conveyance ditch.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-002666 Trinomial: CA-SHA-2666H Agency ID: CA-030-1078 Other: Highway Scatter	Small historic refuse deposit on a gently sloping hillside adjacent to Highway 299 West.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-002674 Trinomial: CA-SHA-2674H Agency ID: CA-030-1087 Other: Shasta Park Ditch #4	Shasta Park Ditch #4 Water conveyance ditch with associated mining trench, prospect hole, can scatter, and claim marker (rock cairn).	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—there are no site features within the APE, and the site will not be adversely impacted.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-45-002676 Trinomial: CA-SHA-2676H Agency ID: CA-030-1089 Other: Shasta Park Ditch #2	Water-conveyance ditch, probably related to mining ca 1900.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-002692 Trinomial: CA-SHA-2692H Other: Crystal Creek Ditch	Structural and archaeological remnants of the Crystal Creek Ditch, constructed during an unknown time but operational probably from the 1850s and greatly modified in the late 1920s/early 1930s. Sixteen features were documented with this site: coffer dam, motor or rotary, overflow dam, tunnel, a possible generator, flume, seven seasonal drainage cross-overs, clean-out shed, siphon, and water tank.	Y (NRHP) Y (CRHR)	1S/1D (NRHP) 1S/1D (CRHR)	1. Hug EOR to ensure avoidance of the site. 2. Cultural monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-45-002714 Trinomial: CA-SHA-2714/H Agency ID: WHIS-98-10 Other: French Gulch Road Multicomponent Site	This multicomponent site consists of three structure flats, historic artifacts, mine adit and associated tailings, and a lithic scatter.	Y (NRHP) N (CRHR)	3S (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-45-002721 Trinomial: CA-SHA-2721/H Agency ID: CA-030-1092 Other: Queens Draw Site	This multicomponent site consists of a flaked stone scatter with midden, a projectile point, FCR, and ground stone, in addition to bottle glass and Celadon ware fragments. The most recent site update mentions a rock hearth.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-002830 Other: Casino Site	This prehistoric resource consists of a midden deposit with burials. Grave goods associated with the burials include both prehistoric items (pine nut beads, projectile points), as well as many historic artifacts including hundreds of trade beads of various sizes and colors. The site is bounded on the west by a parking lot, on the east by Highway 273, and on the south by Clear Creek.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-002939 Trinomial: CA-SHA-2939H Agency ID: FS: 05-06-53-1503 Other: PG&E Pit 1 Vaca-Dixon 230 kV Transmission Line	This resource is the 230-kV PG&E Pit 1 Vaca-Dixon Transmission Line. Construction began in 1921 and commercial operation began late 1922. (Eligible per Site Record)	Y (NRHP) Y (CRHR)	3 (NRHP) 3 (CRHR)	None—the construction method, boring, ensures avoidance of the site, ensuring preservation of the resource.

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-45-003277/3278 Trinomial: CA-SHA-3277H Other: Gambrinus Mine; WHIS-2007-02; New Site-299 Adit/WHIS-2008-04	Eight open pit mining features and associated tailings and artifacts associated with the Gambrinus Mine. Determined Eligible on 5/5/2009. (P-45-003278 has been subsumed by this record.)	Y (NRHP) Y (CRHR)	3 (NRHP) 3 (CRHR)	Cultural monitors required by WNRA for a distance of 1300 feet along Trinity Mountain Road north of 299 junction to ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection. 1. Barricade fencing around features to ensure preservation of the resource. 2. Hug EOR—this ensures avoidance of the site.
Primary: P-45-003480 Other: Roseburg Forest Products; 2000 South Barney Road	This Historic-era resource is an industrial building complex constructed as the administrative office for the Ralph L. Smith Lumber Company ca 1955. The south building was added ca 1963 after Kimberly-Clark purchased the operation. The two main buildings were originally connected by an open walkway that was enclosed in the early 1970s.	N (NRHP) Y (CRHR)	7 (NRHP) 6Z (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-003631 Trinomial: CA-SHA-3631H Other: Kate Camden grave site	Consists of several artifact concentrations; some earthworks such as terraced areas, pits, or depressions; and the Kate Camden grave site.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Cultural monitors required by WNRA for a distance of 1300 feet along Trinity Mountain Road north of 299 junction to ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-45-003633 Trinomial: CA-SHA-3633H Agency ID: IF-WHIS-1998-47 Other: Coggins Sawmill	This historic resource consists of a concrete subsurface portion of a sawmill, trench, concrete slab, concrete chute, a road, and a concrete bridge abutment.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-003634 Trinomial: CA-SHA-3634H	A single probable tent house platform dug into a hillside with a small dry-laid retaining wall.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-003798 Trinomial: CA-SHA-3798H Agency ID: CA-030-1539 Other: Ernie Blaylock Home Site	Foundation remnants and associated artifact scatter of a ca 1900 cabin, last inhabited by Ernie Blaylock. Contains pieces of white earthenware, square nails, glass, stove pipe, and other artifacts. The site also contains fruit trees and a ditch.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-45-003870 Trinomial: CA-SHA3870/H Other: Shasta State Historic Park South Block; NRIS #71000199; SHL-0077-0000	<p>SSHP is a NRHP-listed historic consisting of multiple contributing elements, including historic commercial and habitation areas, standing and remnant brick buildings, roads and trails, and landscape features. The period of significance is 1825 to 1874. The South Block site is principally a historic commercial and habitation area, containing both standing and remnant brick buildings, roads and trails, and landscape features.</p> <p>The 28 features reported here include excavated or filled flats where buildings once stood, stone and brick walls, roads and trails, historic alleyways lined with brick and brick steps, stone cold storage adits cut into the hillside, a subterranean smoke house lined with brick. Two standing structures, the Blumb Bakery and the Litsch Store, were reconstructed on the southeast corner of the site by DPR in the 1980s. There is also sparse evidence of a prehistoric presence here, a few pieces of obsidian, quartzite and chert debitage were found in the backdirt of a leachfield excavation.</p>	Y (NRHP) Y (CRHR)	1S (NRHP) 1S (CRHR)	None—the leased duct construction method will avoid the site by default.
Primary: P-45-003912 Trinomial: CA-SHA-3912H Agency ID: CA-030-1566 Other: Three Ditch Segments	Three relatively shallow/narrow ditch segments, possibly related to the Gold Hill archaeological site.	Y (NRHP) Y (CRHR)	6Z (NRHP) 6Z (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-003913 Trinomial: CA-SHA-3913H Agency ID: CA-030-1506 Other: Morrowville Town Site	Remains of the Morrowville (or Morrowtown) mining camp. The camp was established in 1849 and named after H.W. Marrow. Remains include a small rock building (collapsed), dry-laid rock retaining walls, fruit trees, and a large flat building area. Associated artifacts include bottle glass (amethysted), cast iron stove parts, and metal scraps.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-003915 Trinomial: CA-SHA-3915 Agency ID: CA-030-1508	Pack Trail Standing wooden tool shed, a leveled earth pad, and a section of a road that linked French Gulch with mines and settlement within the French Gulch Mining District.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-45-003916 Trinomial: CA-SHA-3916H Agency ID: CA-030-1509 Other: Hobo Mine	Remnants of the Hobo Mine: includes an adit, mine car track/surface tram, waste rock dumps, roads, a metal shed, a small metal box, an outhouse, a metal tank, and scattered debris.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-45-003917 Trinomial: CA-SHA-3917H Agency ID: CA-030-1510 Other: Philadelphia Mill and Mine	Remains of the Philadelphia Mine and gold mill, ca early to mid-20th century. Includes a ball mill, concrete footings, foundations, retaining walls, and scattered debris.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-004075 Agency ID: CA-030-1666 Other: Milkmaid Mine West 4	Milkmaid Mine. The Milkmaid and Franklin mines combined are among the most important historical hardrock gold mines in the country. Includes numerous adits, concrete footings, timbers, an ore bin, etc.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—there are no site features within the APE, and the site will not be adversely impacted.
Primary: P-45-004077 Trinomial: CA-SHA-4056 Agency ID: CA-030-1671; CA-030-2044 Other: Washington Mine; Washington Mine Can Dump and Pad	The Washington Mine, first worked in 1852 and in operation through the 20th century. The current mill building was constructed in 1938 and renovated in 1958. A trash scatter with cans, glass, and stoneware is situated between the Milkmaid and Washington mines. A structure pad is also included in the record and possibly also adits, roads, and tailings pile.	Y (NRHP) N (CRHR)	3S (NRHP) 7 (CRHR)	None—there are no site features within the APE, and the site will not be adversely impacted.
Primary: P-45-004079 Trinomial: CA-SHA-4079H Agency ID: CA-030-1674	Concentration of collapsed adits and other mine workings, located on private land along a dirt road, north of Scorpion Gulch. The mines appear to be within the Niagara group of mines.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—there are no site features within the APE, and the site will not be adversely impacted.
Primary: P-45-004257 Trinomial: CA-SHA-4257H Agency ID: CA-030-1711 Other: Mining Ditch of French Gulch Road and Creek	Earthen water transport ditch south of French Gulch Road. Six small can scatters associated, dating from the late 19th to early 20th century.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-004259 Trinomial: CA-SHA-4259H Agency ID: CA-030-1717 Other: Cobble Rock Feature	Small cobble foundation with rebar pounded into two corners. A few cans and a green glass bottle associated. Dates to ca 1900.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-45-004260 Trinomial: CA-SHA-4260H Agency ID: CA-030-1718 Other: Old Washington Quartz Mill 1909	Remains of a stamp mill (visible on 1909 plat), with leveled pads and footings, an orchard, a trash scatter, flumes and pipes, a road/trail, and a rock retaining wall.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-004261 Trinomial: CA-SHA-4261H Agency ID: CA-030-1724 Other: Sybil Mine Rock Feature	Reported location of the Sybil Mill. Includes a foundation made of granite rock alignments and concrete, a trash scatter, and 15 two-inch diameter metal rollers, possibly for a conveyor. Possibly dates to late 19th or early 20th century.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	1. Barricade fencing around features to ensure preservation of the resource. 2. Hug EOR—this ensures avoidance of the site.

Primary: P-45-004269 Trinomial: CA-SHA-4269H Agency ID:FS #05-14-54-00608; CA-030-1721 Other: Trail from Camden Toll Road to Dog Creek	Pack mule and foot trail that linked mining communities of Muletown and Dog Creek. Appears on Magee's 1862 map of Shasta County. Includes cement trough at Mexican Spring and a mortared rock culvert after trail becomes South Fork Mountain Road.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-45-004321 Trinomial: CA-SHA-4321H Agency ID: Other: Old Shasta County Hospital; PL-18	Site of the Old Shasta County Hospital remains from 1855 to 1900 with associated cemeteries and orchard. Only foundations, structural pads, road segments, refuse scatters, and a ditch remain.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	1. Barricade P-45-004625 (baby grave) to avoid inadvertent damage to the grave site. 2. Cultural monitoring between pull out at Tollhouse Road to past P-45-004321 to ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection. 3. Contact Temple Beth Israel to see if they have concerns.
Primary: P-45-004383 Trinomial: CA-SHA-4383H Other: WHIS-2006-21	This Historic-era resource site consists of several tailings piles and open prospect pits, as well a trash scatter dating to the mid-1800s. The terrain has been subject to extensive mining activity. The trash scatter is located in a roughly 1-meter by 1-meter depression and appears to have a substantial subsurface component.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-004402 Trinomial: CA-SHA-4402H Agency ID: CA-030-1500	Earth and rock dam/reservoir located in a small ravine below a large mining ditch. Dam is most likely associated with placer mining, and the refuse scatter is later (1940s to 50s), probably related to the highway.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-004445 Trinomial: CA-SHA-4445H Other: Shasta Catholic Cemetery	This historic resource is the Catholic Cemetery of Shasta, which was founded in 1855 at the peak of the town's prosperity and was in use until 1936. The historic Catholic Cemetery is located in SSHP and has been recommended eligible as a contributor to the NRHP-listed historic district (NRIS #71000199). The cemetery contains 88 burials marked by headstones, footstones, and monuments.	Y (NRHP) Y (CRHR)	3D (NRHP) 3CD (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

Primary: P-45-004480 Trinomial: CA-SHA-4480H Other: Wilde Property; APN 011 - 350-072	This Historic-era property consists of a 1.6-acre lot containing a stucco residence, detached stucco garage, 2 outbuildings, a family fruit orchard, ornamental plantings, a small English walnut orchard, and several archaeological features such as brick rubble, possible trash pits, a drainage ditch, and terracing with native stone retaining walls. The buildings and features on the property date to ca 1930 to 1950. This property is within the boundary of SSHP (NRIS #71000199).	Y (NRHP) Y (CRHR)	6X (NRHP) 6C (CRHR)	None—the leased duct construction method will avoid the site by default.
Primary: P-45-004574 Trinomial: CA-SHA-4574H Other: 21035 Treefoil Lane; Woolery House	This Historic-era resource consists of a house constructed ca 1940.	Y (NRHP) Y (CRHR)	6Z (NRHP) 6Z (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-004575 Other: Green House; Lot 159; APN 011-630-010	This Historic-era resource is a one-story wood framed, stuccoed residence built in the 1930s. This resource is within the boundary of SSHP (NRIS #71000199). A letter from State Parks in 2009 states that their intent is to demolish the house because of deterioration, vandalism, and lack of association with the historic park’s period of significance.	Y (NRHP) Y (CRHR)	6Z (NRHP) 6Z (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-004625 Agency ID: CA-030-367; CA-030-1890 Other: Pioneer Baby’s Grave; SHL-0377-0000	The grave of "Pioneer Baby" Charles Brownstein, who died in 1864 (registered CHL No. 377). The grave is also mentioned in the record for CA-030-1891, a segment of Old Highway 299 that passes the site.	N (NRHP) Y (CRHR)	7 (NRHP) 7L/7N (CRHR)	1. Barricade P-45-004625 (baby grave) to avoid inadvertent damage to the grave site. 2. Cultural monitoring between pull out at Tollhouse Road to past P-45-004321 to ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-45-004667 Other: 4466 Eureka Way	This Historic-era resource consists of a national folk, frame, gable-end residence which dates to the 1930s or early 1940s.	Y (NRHP) Y (CRHR)	6Z (NRHP) 6Z (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-004668 Other: 4504 Eureka Way	This Historic-era resource consists of a modern frame gable-end residence which dates to the 1940s.	Y (NRHP) Y (CRHR)	6Z (NRHP) 6Z (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-004715 Other: PL-20A	A rock and concrete water fountain associated with the Historic-era Highway 299 route.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	1. Barricade fencing around features to ensure preservation of the resource. 2. Hug EOR—this ensures avoidance of the site.
Primary: P-45-004719 Trinomial: CA-SHA-4719 Other: PL-21	This Historic-era resource consists of a section of a water conveyance system (ditch) along the west side of Grizzly Creek, which is now an arm of Whiskeytown Lake. The ditch is "v"-shaped and ranges from 4 to 4.5 feet wide by 1 foot deep.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-45-004720 Other: PL-22	Mining activity area consisting of tailings on both sides of New York Gulch.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-004730 Other: PL-15	A ditch segment on the south side of Highway 299 measuring ~175 feet long.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-004733 Trinomial: CA-SHA-4733H Other:9-14-11-a	This historic resource consists of a poured concrete foundation of a house and a garage as well as associated landscaping in the form of non-native vegetation. The entire property appears to have been cleared of any refuse or demolished materials.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-004885 Trinomial: CA-SHA-4885H Agency ID: CA-030-1499	Forty-yard segment of a narrow dirt road. Road runs down the hill from CDF fire station, passes by small refuse scatter in dam area, then heads around a hillside passing by adit portal beneath a ditch. Road integrity is poor.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-004886 Agency ID: CA-030-1500	This site is a historic dam/reservoir area located in a small ravine below a large mining ditch. The dam is earthen and is reinforced with native rock. A small scatter of domestic refuse appearing to date to the 1940s to 1950s is located in the drainage bottom. A mining ditch is nearby although it is unclear if it is related to the dam.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-004995 Other: Anderson Pioneer Cemetery; RASL-1	This Historic-era resource is the Anderson Pioneer Cemetery, which was established in 1861. The cemetery contains approximately 192 headstones.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-005003 Trinomial: CA-SHA-5003H Agency ID: WHIS-2005-09/CA-030-1862	This Historic-era resource consists of an earth berm and stacked rock ditch that parallels Clear Creek.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-005008 Other: Tower House Archaeological District	This historic district consists of the Tower House Archaeological District and contains 14 resources. The nomination process for the NRHP started in 1971, SHPO has yet to concur. The Camden House Historic District (73000257) appears to be subsumed by the Tower House District as the contributing elements are the same.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	Archaeological monitors required by WNRA for a distance of 1300 feet along Trinity Mountain Road north of 299 junction to ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable Project-wide to ensure resource protection.
Primary: P-45-005029 Trinomial: CA-SHA-5029H Other: PL 02	This Historic-era mining site consists of an earthen ditch remnant, two mining cuts/pits, and an associated debris and can scatter.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

Primary: P-45-005030 Other: PL 03	This Historic-era resource consists of four piles of tailings or waste rock alongside a mined-out drainage or draw. The waste rock is on both sides (east and west) of the drainage.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-005031 Other: PL-04; Coggins Sawmill/Crawford Mill Site	This Historic-era resource consists of an altered landscape of ponds, earthen berms, and tailings (waste rock) that appear to be from dredge mining. The features are consistent with former drag-line dredging operations or a lumber mill pond.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-45-005032 Trinomial: CA-SHA-5032H Other: PL 05	This Historic-era resource consists of a mining claim marker, tailings, mine cuts, and a rectangular rock alignment. The mining claim is a Hills Brothers coffee can attached to a grey pine tree. There are scattered mining cuts and tailings throughout the site area. The site is likely associated with CA-SHA-3785H and CA-SHA-4384H (mining sites) and Clear Creek Ditch (CA-SHA-2165H) located west of Clear Creek.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-005033 Trinomial: CA-SHA-5033H Agency ID: IF-WHIS-1999-36 Other: PL 06	This Historic-era resource consists of a mining and residential complex. Features include mining cuts and tailings piles, terraces with rock retaining walls and household debris, two can dumps, spring box, and a dirt road. Site dates to the first half of the 20th century.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-45-005034 Other: PL 07	This Historic-era resource consists of features related to mining: a mine cut, two tailings/waste rock piles, and a sparse scatter of surface artifacts including early to mid-20th century cans and glass bottles.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-005035 Trinomial: CA-SHA-5035H Other: PL 08	This Historic-era resource consists of an earthen ditch segment and associated trash scatter. Artifacts date to ca 1930 to 1960s	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-005046 Trinomial: CA-SHA-5046H Other: PL 09	This Historic-era resource consists of the remains of a concrete pad, a concrete and cobblestone stairway, and a rock retaining wall supported earthen pad. Not Eligible 6/29/2018.	Y (NRHP) Y (CRHR)	6 (NRHP) 6 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-005047 Other: PL 10	This Historic-era resource consists of a mined-out draw and three associated tailings or waste rock pile features.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-45-005048 Other: PL 11	This Historic-era resource consists an earthen ditch segment and an abandoned road.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-005049 Other: PL 15	This Historic-era resource consists of several mining cuts and waste rock piles above a draw. Four mine cuts were identified in the dense vegetation and more may be present.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-45-005050 Other: PL 17	This Historic-era resource consists of an earthen ditch segment with an offshoot to send water downslope. Artifacts were paint can and a crushed, key-wind opened, sanitary can. This ditch segment may have originally connected to a ditch segment on the southwest side of the draw (P-45-005051).	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-45-005051 Other: PL 18	This Historic-era resource consists of an earthen ditch segment. This segment may have been originally connected to a ditch segment to the northwest of the draw (P-45-005050).	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-45-005052 Trinomial: CA-SHA-5052H Other: PL 19	This Historic-era resource consists of a mining ditch segment, a trash scatter, and three mining cuts. The mining cuts are perpendicular to the ditch and extend into a drainage which was also likely mined. The trash scatter is mainly sanitary cans and condensed milk cans. This mining complex may be associated with a nearby residential site (P-45-005053).	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-45-005053 Trinomial: CA-SHA-5053H Other: PL 20	This Historic-era resource is a mining complex with four features: a buried concrete box with lid, a rock and mortar retaining wall and residential pad with debris, and two associated trash scatters. A dirt access road cuts through the site. The trash scatter artifacts (cans, car parts, structural debris) suggest that the site dates from the late 1930s to 1950s.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-45-005054 Other: PL 27	This Historic-era resource consists of a road side can scatter situated on a partially exposed flat north of Highway 299. Approximately 25 cans include church-key-opened steel top, church-key-opened aluminum top, and aluminum-topped pull-tab beer cans. Likely roadside toss that dates to the 1950s to 1960s.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-45-005055 Trinomial: CA-SHA-5055H Other: PL-30	Small historic trash scatter adjacent to the old Highway 299 alignment. The trash scatter appears to be roadside toss associated with the Old Highway 299 alignment that dates to the mid to late 1930s.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-005056 Trinomial: CA-SHA-5056H Other: PL-31	Small historic trash scatter adjacent to the old Highway 299 alignment. The site appears to be roadside toss composed primarily of beverage containers that date to the 1950s based on the type of soda cans and bottles.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-45-005057 Trinomial: CA-SHA-5057H Other: PL-32	Small historic trash scatter adjacent to the old Highway 299 alignment. Contains steel-top, church-key-opened beverage cans; one Coca-Cola bottle base with "WILLITS CALIF" embossed on base; one clear glass bottle fragment; one juice can; and seven aluminum-top pull-tab beverage cans. Site appears to be roadside toss that likely dates to the 1950s/1960s.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-005058 Other: PL 34	This Historic-era resource consists of introduced landscaping (iris), a structural pad, and concrete well. The site occupies a hillside terrace and likely represents a former residence. This resource is within the boundary of SSHP (NRIS #71000199).	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-005059 Other: PL 35	This Historic-era resource consists of a structural flat with three features: two possible well pads and one concrete alignment. This resource is within the boundary of SSHP (NRIS #71000199).	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-005083 Trinomial: CA-SHA-5083H Other: Dairy with Palms	This Historic-era resource consists of the remains of three structures in an open field with four large palm trees, other domestic vegetation, and a light scatter of small fragments of clear and aqua bottle glass, window glass, and white ironstone.	Y (NRHP) Y (CRHR)	6Z (NRHP) 6Z (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-005090; P-45-002552 Trinomial: CA-SHA-5090H Other: T-1003-1	This Historic-era resource consists of a concrete road bridge spanning Anderson Creek, ca 1920 to 1940s.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. Resource would be avoided using the leased duct construction method or boring and will avoid the site by default.
Primary: P-45-005166 Trinomial: CA-SHA-5166H Agency ID: CA-030-1498 Other: MR 1 Segments A to G; Segments WT-L11 and WT-L3; CA-030-1498 segments A-D	This Historic-era resource consists of segments of an 1850s-era dirt road that parallels the modern alignment of Highway 299 near Whiskeytown. Segments of this resource in Trinity County are recorded under P-53-001356. MR 1 Segments A, B, C, D, F, and G have been recommended eligible for the NRHP/CRHR.	Y (NRHP) Y (CRHR)	3S (NRHP) 3CS(CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-45-005169 Other: Coyle Foster Barn	This Historic-era resource is a one-and-a-half story hewn timber barn built in 1850 for Thomas and Mary Coyle in Trinity Valley. The structure was moved to the SSHP (NRIS #71000199) in 1960.	Y (NRHP) Y (CRHR)	6Z (NRHP) 6Z (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-52-001972 Trinomial: CA-TEH-1972H (CA-SHA-3547H; CA-SIS-1684H) Other: Central and Southern Pacific Railroads	Remnants of the Central and Southern Pacific Railroads. These remnants consist of three features: the Gerber Switching Yard (landforms, features, and artifacts) built in 1908 and used into the early 1950s, the Red Bluff Roundhouse built in 1871 (subsurface remains of which consists of bricks and a refuse deposit), and the Red Bluff depot, built in 1871 and still standing today.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-52-002202 Trinomial: CA-THE-2202H Other: Anderson Cottonwood Irrigation District Canal (ACID)	This resource is the Main Canal of the historic ACID. Various segments and features of the canal have been recorded, including diversion structures, earthen ditches, concrete weir, bridge, siphons, and irrigation gate. This canal was originally constructed 1914 to 1917 with periodic modifications and repairs between 1920 and 2001.	Y (NRHP) N (CRHR)	6Z (NRHP) 7 (CRHR)	None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
Primary: P-53-000002 Trinomial: CA-TRI-2	This prehistoric resource consists of a village site, including a pestle and obsidian and chert debitage	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-53-000003	This prehistoric resource consists of a village site, including two pestles.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-53-000025 Trinomial: CA-TRI-25 Agency ID: FS-05-14-56-085 Other: Treganza’s Site	Prehistoric village site underneath a slaughter house.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-53-000177 Trinomial: CA-TRI-177 Agency ID: FS: 05-14-54-02 Other: Big Bar Ranger Station; Manzanita Flat; PL-299W-054	Prehistoric village “Shitimadji” (not evaluated), later inhabited by white and Chinese miners. In the 1930s the CCC built the Big Bar Ranger Station. The station is not eligible for the NRHP. The midden mentioned in 1983 appears to have been filled over or is no longer present. The bedrock mortar also mentioned in 1983 was not relocated, possibly due to the densely overgrown vegetation near the mapped location. The historic buildings mentioned in 1980 on the Zollo property appear to be standing and are outside the APE on private property. On the south side of the highway, the trash concentrations mentioned in 1983 were located but were outside the APE. This refuse concentration is possibly unrelated to the site and more directly associated with the construction of SR 299. Site P-53-002302 and P-53-00177 were combined given boundary overlap and multicomponent nature.	Y (NRHP) N (CRHR)	3 (NRHP) 7 (CRHR)	Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-53-000178 Trinomial: CA-TRI-178 Agency ID: FS: 05-14-54-23	This prehistoric resource consists of a midden deposit containing obsidian debitage and projectile points. Although the site is mapped outside the APE, STNF has stated the portion of the alignment near this site is archaeologically sensitive and must be subjected to presence/absence test excavation prior to construction activities to determine a finding of effect.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection
Primary: P-53-000192 Trinomial: CA-TRI-192	Likely a cemetery for a prehistoric village site, which was destroyed by placer mining. Burials were exposed in the 1940s.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-53-000205 Trinomial: CA-TRI-205 Agency ID: CA-030-011; FS: 05-14-54-03 Other: Old Helena Townsite; Bagdad Townsite	Helena, originally called North Fork, the town was established at the intersection of important pioneer routes previously used by natives. It includes a store, stable, cemetery, and remains of a brewery, blacksmith shop, and hotel. Bagdad—multicomponent and protohistoric site with diverse tool assemblage that includes flaked and ground stone, trade beads, worked bone, and a house pit. Historics include mining cuts, a rock wall, structure pad, tailings, and artifacts (some Chinese).	Y (NRHP) Y (CRHR)	1 (NRHP) 2 (CRHR)	Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-53-000206 Trinomial: CA-TRI-206 Agency ID: FS: 05-14-54-26 Other: Idaho and Cooper's Bar; H-4	This prehistoric resource consists of a light density lithic scatter containing three pieces of obsidian debitage.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-53-000207 Trinomial: CA-TRI-207 Other: H-5	This prehistoric resource consists of a light density lithic scatter.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-53-000231 Trinomial: CA-TRI-231H	This Historic-era resource consists of a segment of a wagon road.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. The resource is outside the area where construction will occur.
Primary: P-53-000359 Trinomial: CA-TRI-359/H Agency ID: FS: 05-10-53-83	A 100-acre Salyer Homestead established in 1914, consisting of four structures (already in extreme disrepair) and an orchard on top of a prehistoric village. Four pits/depressions are possible remains of house pits and a sweat lodge.	Y (NRHP) N (CRHR)	6 (NRHP) 7 (CRHR)	None—there are no site features within the APE, and the site will not be adversely impacted.
Primary: P-53-000438 Trinomial: CA-TRI-438 Agency ID: 05-14-54-55 Other: Cedar Flat; Hotinakcohota Village	This prehistoric resource consists of a lithic scatter.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Archaeological and tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable Project-wide to ensure resource protection.
Primary: P-53-000615 Trinomial: CA-TRI-615 Other: Hotinakcohata Heights	This prehistoric resource consists of a lithic scatter and house pits. Northern section of the site was destroyed by the construction of Highway 299.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. The resource is located south of the APE, atop a cut-slope well above Highway 299, and will not be impacted by the Project.
Primary: P-53-000638 Trinomial: CA-TRI-638H Agency ID: FS: 05-14-54-58 Other: Corral Bottom-Burnt Ranch Trail	Historic trail with blazes, signs, and telephone insulators.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-53-000840 Trinomial: CA-TRI-840H Agency ID: CA-030-027 Other: Clear Gulch Mine	Historic-era hydraulic mining site with roads, tailings, boulder pits, flume and runoff channels, and artifact scatters containing glass, ceramic, metal, rubber, and a kerosene railroad lantern.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—there are no site features within the APE, and the site will not be adversely impacted.
Primary: P-53-000846 Trinomial: CA-TRI-846H Agency ID: FS: 05-10-53-169 Other: Salyer Mining Ditch; Hennessy Ridge Ditch	This Historic-era resource consists of a ditch that provided water to Salyer Consolidated. The ditch never ran any water as it was an engineering failure. P-53-000845 (FS: 05-10-53-168) has been combined and subsumed by this record.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—there are no site features within the APE, and the site will not be adversely impacted.
Primary: P-53-000847 Trinomial: CA-TRI-847H Agency ID: FS: 05-10-53-170 Other: Salyer Mining Campsite	This Historic-era camp site consists of a can scatter (soldered lid), a gold pan, wooden boards with round wire nails, and a three-hole outhouse. The camp is likely associated with the Salyer Mining Ditch (P-53-000846).	Y (NRHP) N (CRHR)	6 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-53-000885 Trinomial: CA-TRI-885 Agency ID: FS: 05-14-54-016 Other: Burnt Ranch Mill Site	Prehistoric village site of “Tsudamdadji” known as “Big Meadow” during historic times. Also, the site of State Prison Road camp and Free Camp, which supplied labor to build the highway.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Cultural and Tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable project wide to ensure resource protection.
Primary: P-53-001008 Trinomial: CA-TRI-1008/H Agency ID: FS: 05-14-54-127 Other: Cox Bar School	Sparse lithic scatter and the Cox Bar School (first built in ca 1852). The school house has been rebuilt twice in different locations within the site with the current building being constructed in the 1960s.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Archaeological and tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable Project-wide to ensure resource protection.
Primary: P-53-001232 Trinomial: CA-TRI-1232H Agency ID: FS: 05-14-54-185 Other: Taylor Flat Ditch	This Historic-era resource consists of the Taylor Flat Ditch. Constructed in the mid 1850’s. There are rock walls in several places.	Y (NRHP) N (CRHR)	6 (NRHP) 7 (CRHR)	None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
Primary: P-53-001320 Trinomial: CA-TRI-1320H Agency ID: FS: 05-14-54-87 Other: Hayden Flat & Campground	This Historic-era resource consists of the US Forest Services campground and guard station buildings (residence and garage) at Hayden Flat dating to the 1930s. The guard station and garage were still standing in 1981, however the buildings were sold and removed the same year, and as of the 2000 recording, only the residence foundation remained. The campground is still in use.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. No features associated with this resource are within the area proposed for construction, and the resource will be avoided by default.

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-53-001329 Trinomial: CA-TRI-1329H Agency ID: FS: 05-14-56-344 Other: China Gulch Water Ditch	Small hand dug ditch that carried water for mining in the 19th century.	Y (NRHP) N (CRHR)	6 (NRHP) 7 (CRHR)	None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
Primary: P-53-001333 Trinomial: CA-TRI-1333H Agency ID: FS: 05-14-56-505 Other: OHP HPD #070126	The Weaverville Ranger District Administrative Site includes ten buildings from the 1930s, including the main district office, warehouses, and barracks. The site was extensively placer mined through the late 19th century prior to its use by the USFS.	Y (NRHP) Y (CRHR)	2S2 (NRHP) 2S2 (CRHR)	Verro to work with the Ranger District to ensure acceptable aerial attachment methods to ensure ongoing preservation of this historic property.
Primary: P-53-001337 Trinomial: CA-TRI-1337H Agency ID: FS: 05-14-54-146; 05-14-54-224 Other: Sandy Bar and Trail	This Historic-era resource consists of the Sandy Bar Trail that accessed the New River Divide Trail from the Trinity River. There are Forest Service Blazes on some trees. The site also includes the small farm settlement/homestead with four building depressions and rock piles and rock walls.	Y (NRHP) N (CRHR)	6 (NRHP) 7 (CRHR)	None. The site is Ineligible on the NRHP/CRHR and is not a historic property.
Primary: P-53-001338 Trinomial: CA-TRI-1338H Agency ID: FS: 05-14-56-359 Other: Moon Lee Ditch	An approximately 3-mile segment of water ditch built in the 1850s for mining. It was originally called Baker ditch and later Blue Gulch ditch. Renamed Moon Lee in 1928, a portion of the ditch still provides water to Weaverville.	Y (NRHP) N (CRHR)	6 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-53-001352 Trinomial: CA-TRI-1352H Other: Weaverville Ditches	This Historic-era resource consists of an interconnected network of drainage ditches that channelize runoff from Sidney, Ash Hollow, and Garden Gulches in downtown Weaverville.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-53-001354 Trinomial: CA-TRI-1354H Agency ID: FS: 05-14-54-590 Other: Howard/Campbell Placer Mine	Placer mining complex with a concrete structure foundation, retaining wall, trash dump, possible trail or leveled ditch, adit, and structure pad.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located on the opposite side of the road and will be avoided.
Primary: P-53-001355 Trinomial: CA-TRI-1355H Agency ID: CA-030-1627 Other: Gribble (Pawtucket Water System)	Small earthen-berm ditch that originally extended from MP 45.13 to 44.84, as indicated on historical Caltrans ROW maps. Ditch has been partially destroyed by construction. May have been used for agricultural purposes.	Y (NRHP) N (CRHR)	6Z (NRHP) 7 (CRHR)	Bore or hug EOR to avoid resource and avoid adverse impact to the site.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-53-001356 Trinomial: CA-TRI-1356H Agency ID: CA-030-1225; CA-030-1404; CA-030-1498; CA-030-1628; CA-030-1891 Other: Camden Road/Old State Highway/Highway 299W; Highway 20; PL-299W-027; Tower Wagon Road; WHIS-2002-05, Shasta-Weaverville Road	Several segments of old road which apparently comprises parallel alignments of the Camden Toll Road, Old State Highway, and Highway 299 West (see also CA-TRI-1735). Also abandoned segments of Old Highway 299, includes paved with asphalt; cuts in the hillside; a concrete culvert; galvanized steel pipe culvert; several post-1950 refuse dumps; a county road between Weaverville and Junction City, which began as a wagon road; and six additional segments of Old Highway 299, originally built in the 1920s. A ca 60-foot segment of well-crafted rock and mortar retaining wall was recorded with Segment 3.	Y (NRHP) N (CRHR)	2, 3S, 6, 7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-53-001358 Trinomial: CA-TRI-1358H Agency ID: FS: 05-14-56-358 Other: Baby Moon Ditch Segment 1	Multiple segments of a water transmission ditch known as Baby Moon Ditch, which probably tapped W. Weaver Creek and Moon Lee Ditch (P-53-001338).	Y (NRHP) N (CRHR)	6 (NRHP) 7 (CRHR)	None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
Primary: P-53-001359 Trinomial: CA-TRI-1359H Agency ID: CA-030-1563 Other: Bagdad Ditch	Water delivery system composed of an earthen berm ditch and an earthen berm reservoir, apparently related to placer mining.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-53-001375 Trinomial: CA-TRI-1375H Agency ID: FS: 05-10-53-300 Other: Lower Trinity Salyer Station	This Historic-era resource consists of the Salyer Station Historic District, formerly the Lower Trinity Ranger Station, constructed by the CCC between 1934 and 1940.	Y (NRHP) N (CRHR)	3S (NRHP) 7 (CRHR)	None. Contributors to the District are outside of the area of construction and will be avoided by default.
Primary: P-53-001398 Trinomial: CA-TRI-1398 Agency ID: CA-030-493 Other: Union Hill Mine Camp West	Mining camp with collapsed structures, house pads, rock walls, ditches, tailings, and trash scatters.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-53-001399 Trinomial: CA-TRI-1399H Agency ID: CA-030-498; CA-030-1226 Other: Union Hill Ditch	Several segments of the Union Hill Ditch, an earthen mining ditch and reservoir system, and several parallel feeder ditches.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—this site is destroyed within the APE and is no longer present.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-53-001433 Trinomial: CA-TRI-1433H Agency ID: FS #05-14-54-00603; CA-030-439 Other: Rush Creek Ditch Musser Hill Segment	Rush Creek Ditch. Well-defined ditch with occasional flume segments. A can dump and adit may be associated, as well as CA-030-490, which is described as a ditch tender's camp.	Y (NRHP) N (CRHR)	6 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-53-001547 Trinomial: CA-TRI-1547H Agency: CA-030-1345 Other: Harvey No. 3 Placer Mine	This historic resource consists of a placer mining landscape with six distinctive tailings piles and a hydraulic mined scarred scarp. The site was revisited by Transcon. After intensive pedestrian survey the datum (Sewer Access) listed by Barnes was not located. The location of the power line from the 2000 report also was not located. Based on these findings the site was re-recorded. The GIS mapped location appeared to be accurate. A new shape was digitized to include Lance Gulch Road. The site located was a hydraulic mining site with large piles of tailings and pits. A bridge runs through the site on Lance Gulch Road. There is a modern junkyard to the north. A modern building is on south side.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the roadbed is raised in this area and the resource is avoid by default.
Primary: P-53-001562 Trinomial: CA-TRI-1562H Agency ID: CA-030-1402 Other: Oregon Cut	California Division of Highways' 1939 deep highway cut through Oregon Mountain in Trinity County, connecting Weaverville to Junction City (PM 47.8-48.3).	Y (NRHP) Y (CRHR)	3S (NRHP) 3CS (CRHR)	Hug EOR—this ensures avoidance of the site
Primary: P-53-001563 Other: La Grange Historic District; State Historic Landmark 778	The La Grange Mine, CHL No. 778, encompasses an area from Oregon Mountain Summit to the Trinity River and includes resources associated with its operations between 1893 and 1918. Contributing elements include: CA-TRI-944H, La Grange Ditch; CA-TRI-1356H, Highway 20 Segment B; CA-TRI-1564H, La Grange Pit; CA-TRI-1565H, La Grange Road System; CA-TRI-1566H, La Grange Manager's Residence Area; CA-TRI-1567H, La Grange Shop and Blacksmith Area; CA-TRI-1568H, La Grange Workers' Housing Area; CA-TRI-1569H, Tailings in Oregon Gulch; and CA-TRI-1570H, Manager's Area Refuse.	Y (NRHP) Y (CRHR)	2D (NRHP) 1CL (CRHR)	Hug EOR to ensure avoidance of resources within the historic district.
Primary: P-53-001564 Trinomial: CA-TRI-1564 Agency ID: CA-030-2025 Other: La Grange Pit; State Historic Landmark 778	A portion of the extensive La Grange Pit complex, which includes part of the pit, a standing powder house, a collapsed structure, a pile of pipe, ore cart rail, and scattered artifacts.	Y (NRHP) Y (CRHR)	2 (NRHP) 1CL (CRHR)	Hug EOR—this ensures avoidance of the site

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-53-001565 Trinomial: CA-TRI-1565H Other: La Grange Road System	A system of internal roads at the La Grange Mine. Includes the Northern Pit Rim Road (1892 to 1905) and the manager's access road (ca 1905 to 1930s). Total length is approximately 4000 feet. Many associated sites are separately recorded.	Y (NRHP) N (CRHR)	2 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site
Primary: P-53-001566 Trinomial: CA-TRI-1566H Agency ID: CA-030-2024 Other: La Grange Manager’s Residence Area	Foundations, rock retaining walls, scattered artifacts, a ditch remnant, remains of the La Grange mine office, and personnel residences for operations between 1893 and 1918. Separately recorded road CA-TRI-1565H bisects the site. Site encompasses P-53-002271.	Y (NRHP) N (CRHR)	2 (NRHP) 7 (CRHR)	None—the site is located on the opposite side of the road and will be avoided.
Primary: P-53-001567 Trinomial: CA-TRI-1567H Agency ID: CA-030-2023 Other: La Grange Blacksmith Shop Area	A mud-mortared, 65-foot-long retaining wall with scattered boards, bolts, washers, pipe segments, and a can, apparent remains of a black smith shop that appears on 1908 and 1913 maps at this location near bottom of Coopers Gulch. Building erected 1896.	Y (NRHP) N (CRHR)	2 (NRHP) 7 (CRHR)	Bore or hug EOR to ensure avoidance of the resource.
Primary: P-53-001569 Trinomial: CA-TRI-1569H Agency ID: CA-030-1403 Other: Tailings in Oregon Gulch; PL-299W-098	Massive waste rock tailings, earthen berms, and pushpiles in the Oregon Gulch from hydraulic mining, located on both sides of SR 299 between MP 45.30 and 45.70.	Y (NRHP) N (CRHR)	6Z (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site
Primary: P-53-001735 Trinomial: CA-TRI-1735/H Other: Old 299	This Historic-era resource consists of six additional abandoned segments of Old Highway 299 north of Douglas City (PM 55.7 -PM 57.6). These six segments are recorded separately from P-53-001356. However, they are the same resource.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-53-001766 Trinomial: CA-TRI-1766H Agency ID: FS: 05-14-54-156 Other: North Fork Trail	One of the earliest historic routes in Trinity County, probably in use since the 1850s. Lower route became a wagon road by late 1800s, and in the mid-30s it was replaced by Hobo Gulch Road. Includes blazes, cairns, old signs, cans, historically cut logs.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the construction method, boring, ensures avoidance of the site, ensuring preservation of the resource.
Primary: P-53-001778 Trinomial: CA-TRI-1778H Agency ID: 05-14-54-148 Other: Chaparral-Eagle Trail	This Historic-era resource consists of a trail accessing the ridge lines from east to west between Chaparral Mountain and the Eagle Rock vicinity.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the construction method, boring, ensures avoidance of the site, ensuring preservation of the resource.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-53-001835 Trinomial: CA-TRI-1835 Agency ID: 05-14-54-213 Other: Western States Gas & Electric Co. Powerline	This Historic-era resource consists of the route of a power line constructed ca 1915. The line and poles were removed shortly after 1949.	Y (NRHP) N (CRHR)	6X (NRHP) 7 (CRHR)	None. The site is Ineligible on the NRHP/CRHR and is not a historic property.
Primary: P-53-001915 Other: Trinity River Lumber Company Mill	The Trinity River Lumber Company property built in 1954 which includes the mill facility, mill pond, office building, and several storage structures and processing areas. (2019 survey confirmed outside of APE)	Y (NRHP) Y (CRHR)	6Z (NRHP) 6Z (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-53-001916 Trinomial: CA-TRI-1916H	Mining activity area with tailings, cut banks, sluice channels, and historic debris and refuse, ca 1880s to 1920s.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
Primary: P-53-001920 Trinomial: CA-TRI-1920H Other: Little Browns Creek Ditch	Mining ditch located on the south side of Little Browns Creek, used to divert water to gravels on the bed and banks of Weaver Creek. Ditch is 3.5 feet wide and 1.5 feet deep. Length unspecified.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Bore to avoid and ensure preservation of the resource.
Primary: P-53-002095 Trinomial: CA-TRI-2095H Agency ID: FS: 05-14-54-214A Other: Corral Bottom Road	This Historic-era resource consists of Corral Bottom Road, constructed ca 1933 to 1935 by the CCC to connect Big Bar and Hyampom. The first major portion is approximately 10 miles in length.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—Corral Bottom Road is actively used and maintained. Construction along this road will not adversely impact the historical significance of the site.
Primary: P-53-002115 Trinomial: CA-TRI-2115H Other: Humboldt Mail Trail Segment	This Historic-era resource consists of a segment of the Humboldt Mail Trail, much of this segment has been converted into a road. Contributing element to the proposed Salyer Mining District (P-53-002116).	Y (NRHP) Y (CRHR)	3D (NRHP) 3D (CRHR)	None—there are no site features within the APE and the site will not be adversely impacted.
Primary: P-53-002116 Other: Salyer Mining District	Historic Salyer Mining District, which spans a period from 1850 to 1950, consists of early mining claims and settlements and a varied number of mining periods with features associated with each period (many of which overlap). These features include a maintenance shop and company office from the 1920s Salyer Consolidated Mines company, a landing strip, a surge tank, three pump houses, a water conveyance system with six ditches, and six open mine pits. Mining equipment is scattered throughout the area. It is likely that the site extends beyond its current boundaries. This district includes ten resources that have separate primary numbers: P-53-002115 (Humboldt Mail Trail), P-53-002117 through -002124, and P-53-002415. S-6417 (2004) suggests that this district should be eligible.	Y (NRHP) Y (CRHR)	3S (NRHP) 3S (CRHR)	None. The Project is restricted to existing road ROW, and no elements of the district are intersected by the Project.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-53-002132 Trinomial: CA-TRI-2132H Agency ID: CA-030-1488 Other: McGillivray Ditch	Major mining ditch related to hydraulic/placer gold recovery. One of the earliest ditches in Trinity County, dating to about 1850, with one of the first water rights of Canyon Creek. It was used into the 1900s.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-53-002186 Other: Upper Middle Deadwood Ditch; Site #4	This Historic-era resource is a water conveyance ditch likely associated with mining activities.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-53-002192 Other: PL-299W-028	This Historic-era resource consists of an area of tailings, foundation remnants, and a can scatter.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. No elements of the site were identified within the road ROW where construction is planned, and the construction method, boring, will avoid the resource by default.
Primary: P-53-002194 Other: Deadwood Road; HDR-1	Segment of historic Deadwood Road consists of a cut road bed of dirt/gravel.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—this road is activity used and maintained. Construction along this road will not adversely impact the historical significance of the site.
Primary: P-53-002206	This Historic-era resource is the Hocker Flat Dredge Tailings site. This site consists of roughly 80 acres of discontinuous dredge tailings on private land near Hocker Flat along and parallel to the Trinity River. It is believed that these are the remnants of ca 1936-1948 (with a brief period of non-operation during World War II), gold mining via bucket line dredging and table stacker, operated by the Junction City Dredge and built by Yuba Manufacturing Company (West and Welch 2004, 2007). The site has not been evaluated in total for the NRHP/CRHR but is lacking in overall integrity as the tailings are heavily altered as a result of flooding and mining activities. The southern portion of the site, that which intersects the APE-DE has been determined ineligible for the NRHP due to compromised integrity, lack of association with events, persons, or achievements.	Y (NRHP) N (CRHR)	6 (NRHP) 7 (CRHR)	None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
Primary: P-53-002268 Other: PL-41A	Three rock retaining walls associated with an abandoned route of Highway 299. Segment A, a well-crafted 15 to 20 course rock and mortar wall, is also recorded under CA-030-1225. Segment C is exclusively dry laid, and B is a combination.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	1. Hug EOR—this ensures avoidance of the site. 2. Barricade monument to avoid potential damage via equipment. 3. Avoid extensive heavy machinery use/vibration in area to ensure preservation of the integrity of the resource

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-53-002271 Other: PL-299W-100	Located on a slope above Highway 299, the site consists of 4 dry-laid fieldstone rock walls, a 67-by-34-foot structure pad, and a debris scatter. Walls range from 42 to 77 feet long and 2 to 4.5 feet high. Debris includes bottles and structural materials. Site is encompassed by P-53-001566.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. The site is located on the opposite side of the road and will be avoided.
Primary: P-53-002272 Other: State Historic Landmark 778; La Grange Mine; PL-299W-099	This is a cursory record that apparently documents the linear strip of La Grange mine that lies in the Highway 299 Caltrans ROW west of Oregon Mountain Summit. A stone historic landmark "memorial" is located at PM 47.76, along with an antique monitor.	Y (NRHP) Y (CRHR)	3S (NRHP) 1CL (CRHR)	Hug EOR—this ensures avoidance of the site
Primary: P-53-002273 Agency ID: FS #05-14-54-00604 Other: PL-299W-101	Historic-era ditch that passes under Highway 299 via a modern corrugated pipe.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site.
Primary: P-53-002275 Trinomial: CA-TRI-2275H Agency ID: CA-030-2126 Other: Smith Flat Gold Placer Mine; PL-3-042	Large-scale hydraulic placer mine from ca 1890 to 1900, with a large area of tailings on both sides of Highway 3, east of the Trinity River. May include both dredge and hydraulic tailings. Artifacts include cans and nails.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the construction method, boring, ensures avoidance of the site, ensuring preservation of the resource.
Primary: P-53-002278 Trinomial: CA-TRI-2278H Agency ID: 05-14-54-237 Other: Pigeon Point Mining	This Historic-era resource consists of a hydraulic mining operation site with various features (mining cuts, tailings piles, ditch segments) within the modern Pigeon Point Campground and on the north side of Highway 299. Heavily impacted by the highway, campground, restrooms, and natural erosion.	Y (NRHP) N (CRHR)	6Y (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-53-002279 Other: PL-299W-052	This Historic-era resource consists of a 250-foot segment of a ditch.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. The resource does not extend within the road where construction is planned and will be avoided by default.
Primary: P-53-002287 Other: PL-299W-031	This Historic-era resource consists of a concrete bridge and rock culvert on Swede Creek.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. The Project would use conduit on the bridge or otherwise bore at this location and will entirely avoid the resource.
Primary: P-53-002288 Other: PL-299W-035	This Historic-era resource consists of a hydraulic mining complex with tailings, three structure features, and a can scatter.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. No features or artifacts associated with this resource extend into the road ROW where construction will occur.
Primary: P-53-002289 Other: PL-299W-037	This Historic-era resource consists of a pair of rock retaining walls along a curve of Highway 299.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. The Project will not dismantle or otherwise impact existing Caltrans infrastructure.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-53-002290 Other: PL-299W-039	This Historic-era resource consists of a rock wall and ditch.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. No features or artifacts associated with this resource extend into the road ROW where construction will occur.
Primary: P-53-002291 Other: PL-299W-040	This Historic-era resource consists of a hydraulic mining cut with tailings.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. No features or artifacts associated with this resource extend into the road ROW where construction will occur.
Primary: P-53-002292 Other: PL-299W-041	This Historic-era resource consists of a mining cut with tailings.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. No features or artifacts associated with this resource extend into the road ROW where construction will occur.
Primary: P-53-002293 Other: PL-299W-043	This Historic-era resource consists of two bridge abutments (rock) on both sides of Big French Creek. (Exempt resource per the Caltrans Section 106 PA)	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. The site is Ineligible or the NRHP/CRHR and is not a historic property.
Primary: P-53-002294 Other: PL-299W-044	This Historic-era resource consists of a stone and mortar retaining wall on the southwest side of Highway 299.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. The Project will not dismantle or otherwise impact existing Caltrans infrastructure.
Primary: P-53-002295 Other: PL-299W-046	This Historic-era resource consists of a mining activity area and consists of numerous tailings piles arranged in parallel rows.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. No features or artifacts associated with this resource extend into the road ROW where construction will occur.
Primary: P-53-002296 Other: PL-299W-047	This Historic-era resource consists of a pair of culverts at Prairie Creek on both sides of Highway 299.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	The construction method, boring, ensures avoidance of the site, ensuring preservation of the resource.
Primary: P-53-002297 Other: PL-299W-049	This Historic-era resource consists of a series of rock retaining walls on the south side of Highway 299.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. The Project will not dismantle or otherwise impact existing Caltrans infrastructure.
Primary: P-53-002300 Agency ID: FS #05-14-54-00605 Other: PL-299W-055; Manzanita Creek Bridge	Bridge #5-9 situated on Manzanita Creek.	Y (NRHP) N (CRHR)	6Y (NRHP) 7 (CRHR)	None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
Primary: P-53-002304 Trinomial: CA-TRI-2304H Agency ID: FS: 05-14-54-592 Other: PL-299W-062	An extensive tailing pile approximately 1/4 mile long, stretching along both sides of Highway 299.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR to avoid resource.
Primary: P-53-002311 Other: PL-299W-102	This Historic-era site consists of a series of four rock retaining walls and parapets on the north side of Highway 299.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. The Project will not dismantle or otherwise impact existing Caltrans infrastructure.
Primary: P-53-002312 Other: PL-299W-103	This Historic-era site consists of a series of four rock retaining walls along Highway 299.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. The Project will not dismantle or otherwise impact existing Caltrans infrastructure.
Primary: P-53-002316 Other: PL-299W-097	Mining activity area consisting of a large abandoned open pit mine and a cut/ditch that flows into the pit mine.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Bore or hug EOR to ensure avoidance of the resource.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-53-002317 Other: PL-299W-096	Mining activity area consisting of a mining cut/ditch and tailings.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Hug EOR—this ensures avoidance of the site
Primary: P-53-002325 Other: PL-299W-081	This Historic-era site consists of an isolated ditch segment on the south side of Highway 299. Adjoining portions of the ditch have been destroyed by the highway.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—there are no site features within the APE and the site will not be adversely impacted.
Primary: P-53-002347 Other: PL-299W-007	This Historic-era site consists of a rock retaining wall and parapet on the north side of Highway 299.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. The Project would use conduit on the bridge or otherwise bore at this location and will entirely avoid the resource.
Primary: P-53-002348 Other: PL-299W-008	This Historic-era site consists of an extensive area of tailings on both sides of Highway 299.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. The Project would bore within existing road ROW and avoid this resource.
Primary: P-53-002376 Other: PL-299W-030	This Historic-era resource consists of two segments of rock walls with parapets situated on a steep slope along Highway 299.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. The Project will not dismantle or otherwise impact existing Caltrans infrastructure.
Primary: P-53-002377 Other: PL-299W-009	This Historic-era resource consists of a rock retaining wall and parapet situated on a steep slope on the north side of Highway 299.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. The Project will not dismantle or otherwise impact existing Caltrans infrastructure.

Primary: P-53-002383 Other: PL-299W-020	This Historic-era site consists of a concrete foundation on the southeast side of Highway 299.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. No features associated with this resource are within the road, where construction for the Project will occur.
Primary: P-53-002384 Other: PL-299W-022	This Historic-era site consists of a complex of rock walls and foundations on the south side of Highway 299.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. No features associated with this resource are within the road, where construction for the Project will occur.
Primary: P-53-002385 Other: PL-299W-026	This Historic-era site consists of a rockslide retaining wall of local fieldstone and cement mortar on the north side of Highway 299.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. The Project will not dismantle or otherwise impact existing Caltrans infrastructure.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
Primary: P-53-002387 Other: PL-299W-105	This prehistoric site consists of a light lithic scatter on both sides of Highway 299.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	Archaeological and tribal construction monitoring will ensure any resources inadvertently discovered will be preserved and protected in accordance with agency guidance that is adequate and applicable Project-wide to ensure resource protection.
Primary: P-53-002388 Other: PL-299W-106	This Historic-era site consists of a series of retaining walls (five) along Highway 299.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. The Project will not dismantle or otherwise impact existing Caltrans infrastructure.
Primary: P-53-002423 Agency ID: FS: 05-14-54-88 Other: China Slide	This Historic-era site consists of a local historical landmark of a landslide known as China Slide on Highway 299. (5527-0017-0000)	Y (NRHP) N (CRHR)	3S (NRHP) 7 (CRHR)	None. The Project construction method, boring, will avoid adverse effects to the historical landmark.
Primary: P-53-002492 Trinomial: CA-TRI-2492H Agency ID: CA-030-2046 Other: Brown's Fire Historic Scatter	Possible foundation and a diffuse scatter of historic artifacts adjacent to Highway 299, including cans, glass, car parts, ceramic and glass insulators, bricks, and wire. Scatter may be related in part to a former gas station at this location.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None—the site is located outside the APE of construction and is avoided by default.
Primary: P-53-002548 Trinomial: CA-TRI-2548H Agency ID: FS: 05-10-53-120 Other: Swanson's Bluff	This Historic-era resource consists of two mining ponds, four mining ditches, a wooden flume, an old orchard, several roads, foundations, and trash piles.	N (NRHP) N (CRHR)	7 (NRHP) 7 (CRHR)	None. The resource has been destroyed and does not extend into the APE.
TR-D299-A-002	This is a historic site consisting of a double-box concrete culvert that may be part of ACID. Newly recorded.	Recommended Ineligible		None—the construction method, boring, ensures avoidance of the site, ensuring preservation of the resource.
TR-D299-A-003	This is a historic site consisting of a concrete culvert located underneath South Barney Road. Newly recorded.	Recommended Ineligible		None—the construction method, boring, ensures avoidance of the site, ensuring preservation of the resource.
TR-D299-A-006	This is a historic site consisting of a concrete bridge. Newly recorded.	Recommended Ineligible		None—the construction method, boring, ensures avoidance of the site, ensuring preservation of the resource.
TR-D299-A-007	This is a historic site consisting of a 1921 concrete bridge crossing Anderson Creek. Newly recorded.	Recommended Ineligible		None—the leased duct construction method will avoid the site by default.
TR-D299-A-008	Historic site consisting of an historic cement box culvert marked with the date 1949 formed into the concrete. Newly recorded.	Recommended Ineligible		None—the leased duct construction method will avoid the site by default.
TR-D299-A-009	Historic site consisting of historic cement box culvert with a circular opening. Newly recorded.	Recommended Ineligible		None—the leased duct construction method will avoid the site by default.
TR-D299-A-010	Historic site consisting of historic cement box culvert with a circular opening. Newly recorded.	Recommended Ineligible		None—the leased duct construction method will avoid the site by default.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
TR-D299-A-011	This is a historic site consisting of a cement overcrossing/waterway complex that allows water to flow underneath the grades of Railroad Avenue and the SPRR. This may be a feature of CA-SHA-3547H. Newly recorded.	Recommended Ineligible		None—the leased duct construction method will avoid the site by default.
TR-D299-A-012	This is a historic site consisting of a cement overcrossing/waterway complex that allows water to flow underneath the grades of Railroad Avenue and the SPRR. This may a feature of CA-SHA-3547H. Newly recorded.	Recommended Ineligible		None—the leased duct construction method will avoid the site by default.
TR-D299-A-014	This is a historic site consisting of a rock retaining wall. Newly recorded.	Recommended Ineligible		1. Barricade fencing around features to ensure preservation of the resource. 2. Hug EOR—this ensures avoidance of the site.
TR-D299-A-018 CA-030-2250	This is a historic site consisting of a collapsed adit dug into the hillside slope adjacent to the north side of French Gulch Road. Newly recorded.	Unevaluated		1. Barricade fencing around features to ensure preservation of the resource. 2. Hug EOR—this ensures avoidance of the site.
TR-D299-A-019	This is a historic site consisting of a hydraulic mining tailings pile approximately 300 feet long. Newly recorded.	Recommended Ineligible		Hug EOR—this ensures avoidance of the site.
TR-D299-A-020	French Gulch Bridge 06C0284. This is a cement bridge crossing French Gulch Creek on French Gulch Road. Newly recorded.	Previously Determined Ineligible		None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
TR-D299-A-022	This is a historic site consisting of a dry-laid rock wall constructed from river cobbles. Newly recorded.	Recommended Ineligible		1. Barricade fencing around features to ensure preservation of the resource. 2. Hug EOR—this ensures avoidance of the site.
TR-D299-A-023	This is a historic site consisting of a large depression on the hillside on the west side of Deadwood Road. Newly recorded.	Recommended Ineligible		1. Barricade depression area to avoid potential damage via equipment. 2. Hug EOR—this ensures avoidance of the site.
TR-D299-A-025 CA-030-2251	This is a historic site consisting of multiple historic-site tailings piles on the south side of the road and two features. Newly recorded.	Unevaluated		Hug EOR—this ensures avoidance of the site.
TR-D299-A-028	This historic site is ditch. Newly recorded.	Recommended Ineligible		Bore or hug EOR to ensure avoidance of the resource.
TR-D299-A-033 CA-030-2252	This is a historic site consisting of a ditch, approximately 862 feet in length and measuring 5 feet wide at the top, 1 foot wide at the bottom, and 2 feet in depth. Newly recorded.	Recommended Ineligible		Hug EOR—this ensures avoidance of the site.
TR-D299-A-036	This is a historic site consisting of a ditch, approximately 597 feet in length, 15 feet wide at the top, 2 feet wide at the bottom and 25 feet deep. Newly recorded.	Recommended Ineligible		Hug EOR—this ensures avoidance of the site.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
TR-D299-A-038 FS# 05-14-54-00618	Trinity River Bridge 05C0162. This is a steel frame and concrete bridge built in 1957. The bridge spans the Trinity River via Corral Bottom Road.	Previously Determined Ineligible		None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
TR-D299-A-043	This is a historic site consisting of an adit on the east side of Bald Mountain Road. Newly recorded.	Unevaluated		It is within the encompassing TCP, Tauzer #2/Cupule Boulder. This is location of prayers and other activities during the World Renewal Ceremony. No construction occurs in the vicinity of the site, and no equipment be left in the viewshed of the site during these ceremonies.
TR-D299-A-044	North Fork Mad River Bridge 04C0026. This is a historic site consisting of a concrete bridge constructed in 1928 which spans the North Fork of the Mad River. Newly recorded.	Unevaluated		None—the site is located outside the APE of construction and is avoided by default.
TR-D299-A-046	Lindsay Creek Bridge 04C0120, constructed in 1924 and widened/extended in 1960. Newly recorded.	Previously Determined Ineligible		None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
TR-D299-A-049	7th Street OC 04-0054. This is a historic site consisting of the 7th Street overcrossing over U.S. 101 in Arcata. Newly recorded.	Previously Determined Ineligible		None—the site is Ineligible on the NRHP/CRHR and is not a historic property
TR-D299-A-052 CA-030-2257	This is a historic road segment that runs roughly east/west, south of and paralleling SR 299. The recorded segment is approximately 9 feet wide and runs for 676 feet. Newly recorded.	Recommended Ineligible		Hug EOR—this ensures avoidance of the site.
TR-D299-A-053	Whiskey Creek Bridge 06 0096. This is a ca 1960s steel plate-girder bridge.	Previously Determined Eligible		Consult with bridge owner to identify a construction method that will not compromise the integrity or historic significance of the unevaluated resources, if any.
TR-D299-A-054	This historic-site site consists of a Heritage Tree designated by WNRA and consists of a large Interior Live Oak (<i>Quercus wislizeni</i>). Newly recorded.	Recommended Eligible		Inyo to consult with arborist and county for tree root protection during construction, cultural monitoring.
TR-D299-B-001	This is a historic site consisting of an abandoned asphalt paved road, possibly an old alignment of Locust Road. Newly recorded.	Recommended Ineligible		None—road is actively used and maintained. Construction along this road will not adversely impact the historical significance of the site.
TR-D299-B-002	This is a historic site consisting of a water control feature under Locust Road. Possibly a contributing element of ACID (P-52-002202). Newly recorded.	Recommended Eligible		None—the leased duct construction method will avoid the site by default.
TR-D299-B-004	Historic site consisting of historic cement box culvert with a circular opening. Newly recorded.	Recommended Ineligible		None—the leased duct construction method will avoid the site by default.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
TR-D299-B-005	Historic site consisting of concrete box culvert with a circular opening and bronze marker. Newly recorded.	Recommended	Ineligible	None—the leased duct construction method will avoid the site by default.
TR-D299-B-006	Historic site consisting of concrete box culvert with a circular opening and bronze marker. Newly recorded	Recommended	Ineligible	None—the leased duct construction method will avoid the site by default.
TR-D299-B-007	Historic site consisting of concrete box culvert with a circular opening and bronze marker. Newly recorded	Recommended	Ineligible	None—the leased duct construction method will avoid the site by default.
TR-D299-B-008	Historic site consisting of concrete box culvert with a circular opening and bronze marker. Newly recorded	Recommended	Ineligible	None—the leased duct construction method will avoid the site by default.
TR-D299-B-009	This is a historic site consisting of a one-lane roadway that was previously paved with asphalt. Newly recorded.	Recommended	Ineligible	None—the leased duct construction method will avoid the site by default.
TR-D299-B-010	Canyon Hollow Creek Bridge 06C0145. This is a cement bridge measuring 90 feet north/south and 30 feet east/west. Newly recorded.	Previously Determined	Ineligible	None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
TR-D299-B-013	This is a historic site consisting of a concrete cistern in a drainage adjacent to the roadway. Newly recorded.	Recommended	Ineligible	1. Barricade fencing around features to ensure preservation of the resource. 2. Hug EOR—this ensures avoidance of the site.
TR-D299-B-015	This is a historic site consisting of a stacked rock wall. Newly recorded.	Recommended	Eligible	1. Barricade fencing around features to ensure preservation of the resource. 2. Hug EOR—this ensures avoidance of the site.
TR-D299-B-017	This is a historic site consisting of a dirt road along the embankment to the west above the current modern unpaved roadway. Newly recorded.	Recommended	Ineligible	Hug EOR—this ensures avoidance of the site.
TR-D299-B-018	French Gulch Bridge 06C0285. This is a reinforced concrete bridge that spans the Right Fork of French Gulch on French Gulch Road. Newly recorded.	Previously Determined	Ineligible	None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
TR-D299-B-019	This is a historic site consisting of two features: a historic bridge and a stacked rock wall feature. This site is on French Gulch Road a between TR-D299-A-020 (Bridge 06C0284) and TR-D299-B-018 (Bridge 06C0285). Newly recorded.	Recommended	Ineligible	Consult with bridge owner to identify a construction method that will not compromise the integrity or historic significance of the unevaluated resources, if any.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
TR-D299-B-020 CA-030-2253	This is a historic site consisting of a large deposit of undifferentiated tailings extending approximately 8,400 feet along French Gulch Creek. Resource P-45-004257, a ditch, passes through the southern portion of the site. The tailings west of French Gulch are in the area of the former old community of Morrowville. This was a dispersed community and includes the old William's House and remains of Chinese cabins on the south side of the road. There is currently a trailer park east of the road that is on top of an old Chinese community (E. Ritter, personal communication 2019).	Recommended Ineligible		Hug EOR—this ensures avoidance of the site.
TR-D299-B-021	This is a historic site consisting of an adit on the west side of Deadwood Road. Newly recorded.	Recommended Ineligible		1. Barricade depression area to avoid potential damage via equipment. 2. Hug EOR—this ensures avoidance of the site.
TR-D299-B-022	This is a historic site consisting of a segment of a deflated mining ditch on the east side of Deadwood Road. Newly recorded.	Recommended Ineligible		Hug EOR—this ensures avoidance of the site.
TR-D299-B-023	This is a historic site consisting of an abandoned dirt road segment located above Deadwood Road to the northeast. Newly recorded.	Recommended Ineligible		Hug EOR—this ensures avoidance of the site.
TR-D299-B-024	This is a historic site consisting of a mining complex with three features: two structure pads and one collapsed shaft. Newly recorded.	Unevaluated		1. Hug EOR to avoid resource. 2. Barricade fencing due to fragile retaining wall directly adjacent to EOR. 3. Avoid extensive heavy machinery use/vibration in area
TR-D299-B-026 CA-030-2254	This is a historic site consisting of a ditch. Newly recorded.	Recommended Ineligible		Hug EOR—this ensures avoidance of the site.
TR-D299-B-028	This is a historic site consisting of a ditch on the east side of SR 299. The ditch is approximately 455 feet long, 5 feet wide, and 1 foot deep. Newly recorded.	Recommended Ineligible		Hug EOR—this ensures avoidance of the site.
TR-D299-B-029 CA-030-2255	This is a historic site consisting of a large mining complex, composed primarily of tailing piles, and drainage tunnels down to road. Newly recorded.	Recommended Ineligible		Barricade drainage and tunnel features to avoid potential damage via equipment.
TR-D299-B-030	This is a historic site consisting of a mining complex composed of tailings piles. Newly recorded.	Recommended Ineligible		Bore or hug EOR to ensure avoidance of the resource.
TR-D299-B-031	This is a historic site consisting of a monument marking the site of an 1854 Tong battle. Newly recorded.	Recommended Ineligible/Treat as Eligible		Barricade monument to avoid potential damage via equipment.
TR-D299-B-034 CA-030-2256	Clear Gulch Bridge 05C0166. The bridge was built ca 1955 and spans Clear Gulch via Canyon Creek Road. Newly recorded.	Previously Determined Ineligible		None—the site is Ineligible on the NRHP/CRHR and is not a historic property.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
TR-D299-B-035 FS# 05-14-54-00619	This is a historic site consisting of a ditch approximately 170 feet long, 6 feet wide at the top, 2 feet wide at the bottom, and 4 feet deep. Newly recorded.	Recommended	Ineligible	Hug EOR—this ensures avoidance of the site.
TR-D299-B-036 FS # 05-14-54-00606	This is a historic site consisting of a segment of a ditch and includes Modern-era pipe. Newly recorded.	Recommended	Ineligible	Hug EOR—this ensures avoidance of the site.
TR-D299-B-037	This is a historic site consisting of a heavily eroded retaining wall composed of dry-laid river rocks, 5 courses tall and approximately 20 feet long. Although well off the alignment, BLM RFO requests the walls be barricade as a protection measure. Newly recorded.	Recommended	Ineligible	1. Barricade fencing around features to ensure preservation of the resource. 2. Hug EOR—this ensures avoidance of the site.
TR-D299-B-038 FS #05-14-54-00607	This is a historic site consisting of a ditch, approximately 2612.6 feet in length, measuring 7 feet wide at the top, 2 feet wide at the bottom, and 2.6 feet in depth. Newly recorded.	Recommended	Ineligible	Bore or hug EOR to avoid resource and avoid adverse impact to the site.
TR-D299-B-039 FS# 05-10-53-00333	This is a historic site consisting of a collapsed adit. Newly recorded.	Recommended	Ineligible	None—the site is located on the opposite side of the road and will be avoided.
TR-D299-B-041	This is a prehistoric site consisting of a dead Redwood tree (<i>Sequoia sempervirens</i>) known as the “Indian Arrow Tree.” This heritage tree represents historical cultural significance to the Native Americans. Newly recorded.	Unevaluated		Bore to a depth that will avoid tree roots.
TR-D299-B-044	Route 200-299 Separation 04-0184 bridge that provides arterial separation of SRs 200 and 299. Newly recorded.	Previously Determined	Ineligible	None—the site is Ineligible or the NRHP/CRHR and is not a historic property.
TR-D299-B-045	Hammond Trail Bridge (Vance Mill Lumber Company Railroad Bridge). This is a historic site consisting of the Vance Mill and Lumber Company Railroad Bridge. The original bridge, constructed in 1875, is no longer present. The bridge was relocated to its present location in 1896. In 1903, the bridge was reconstructed, and in the 1940s, a steel truss bridge was added at the south end of the original bridge. The steel truss bridge is all that remains.	Recommended	Ineligible	None—the site is Ineligible or the NRHP/CRHR and is not a historic property.
TR-D299-B-046	This is a historic site consisting of the remnants of a road that appears to have been constructed to provide access to a radio transmitter area formerly located in the southwest corner of the airport area. Newly recorded.	Previously Determined	Ineligible	None—the site is Ineligible or the NRHP/CRHR and is not a historic property.
TR-D299-B-047	This is a historic site consisting of an irregular cement foundation with two raised cement circle outlines with a metal pipe offset from the center of each circle. Newly recorded.	Recommended	Ineligible	1. Barricade fencing of resource. 2. Hug EOR to avoid.

CULTURAL RESOURCES IDENTIFIED WITHIN DIGITAL 299 CONSTRUCTION FOOTPRINT*

Resource ID	Description	Evaluated	Eligible Y/N Status Code	Recommended Action and Justification
TR-D299-B-048	Westhaven Drive UC 040006. This is a historic cement bridge crossing South Westhaven Drive on U.S. 101. Newly recorded.		Recommended Ineligible	Consult with bridge owner to identify a construction method that will not compromise the integrity or historic significance of the unevaluated resources, if any.
TR-D299-B-049	Sixth Street UC OC 040057. This is a cement bridge crossing 6th Street on U.S. 101. Newly recorded.		Previously Determined Ineligible	None—the site is Ineligible or the NRHP/CRHR and is not a historic property.
TR-D299-B-050	Airport Road Under Crossing 04-169R. This is a pair of north/south-oriented bridges. The bridges are concrete with metal guardrails. Newly recorded.		Previously Determined Ineligible	None—the site is Ineligible or the NRHP/CRHR and is not a historic property.
TR-D299-B-051	Glendale Drive UC 04-0186, Glendale Drive undercrossing of SR 299 in Glendale. Newly recorded.		Previously Determined Ineligible	None—the site is Ineligible or the NRHP/CRHR and is not a historic property.
TR-D299-B-052	McDaniel Slough Bridge 04-0222 crossing SR 255 over the slough. Newly recorded.		Previously Determined Ineligible	None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
TR-D299-B-053	Mad River Slough Bridge 04-0257. This is the SR 255 crossing over the slough. Newly recorded.		Previously Determined Ineligible	None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
TR-D299-C-001	Historic resource consisting of a small concrete bridge that crosses the Anderson-Cottonwood Irrigation Canal, spanning roughly 20 feet long (north/south) and 20 feet wide (east/west). Irrigation District (ACID) is recorded as P-52-002202] Wing-wall buttresses extend roughly 20 feet at a 40-degree angle from each corner of the bridge. The historic site is in fair condition with moderate impacts from erosion and structural decay.		Found Ineligible through survey evaluation	None—the site is Ineligible on the NRHP/CRHR and is not a historic property.
TR-D299-C-002	This is a historic resource consisting of a bridge (04-0135). This historic resource consists of a concrete and steel bridge roughly 425 feet long (north/south) by 30 feet wide (east/west). The bridge is supported by four sets of two concrete pillars which support large metal I-beams. These beams in turn support a concrete two-lane roadway lined with tubular metal guard rails. The bridge is designated “Willow CR 04-0135”.		Previously determined Ineligible by Caltrans (2015)	None—the site is Ineligible on the NRHP/CRHR and is not a historic property.

* Within the 25-foot-wide construction corridor
