Project Title: Campbell Ridge Road- Post Six Rivers Complex Fire Damage: 5 Culvert Replacements

Project Location - Specific:
These project sites are located in western Trinity County adjacent to the Humboldt County line. From the town of Salyer, turn onto Campbell Ridge Road (County Road 454). Continue the first project site to 40.9070956°, -123.5832102°. All project sites are located within the first 5 miles of Campbell Ridge Road. These project sites are as follows: 1: 40.9070956°, -123.5832102°; 2: 40.9063385°, -123.6054427°; 3: 40.9068947°, -123.6061061°; 4: 40.9165512°, -123.6095418°; 5: 40.9238930°, -123.6130013°

Project Location - City: Salyer  Project Location - County: Trinity

Description of Nature, Purpose, and Beneficiaries of Project:
These ditch relief culvert (DRC) sites sustained damages during the 2022 Six Rivers Fire. The plastic pipes melted due to extreme heat causing collapse, and further erosion is contributing to blockages. These DRCs are 12"-18" in diameter, and vary from 20′-40′ in length. The sites will be dry at the time of replacement. Best Management Practices will be followed per the Water Quality and Stream Habitat Protection Manual. These are aimed at alleviating both direct and indirect impacts to water quality by reducing environmental degradation from sediment delivery, and minimizing the potential for other adverse effects such as hazardous and deleterious materials from entering the watercourse.

Public Agency Approving Project: Trinity County Department of Transportation

Person or Agency Carrying Out Project: Trinity County Department of Transportation

Exempt Status: (check one)
- Ministerial (Sec. 21080(b)(1); 15268);
- Declared Emergency (Sec. 21080(b)(3); 15269(a));
- Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
- Categorical Exemption:
  Article 19 Class 1 Section 15301 (d) Existing Facilities
  Article 19 Class 2 Section 15302 (c) Replacement or Reconstruction
- Statutory Exemption. State code number:
**Reasons why project is exempt:** This project does not have any significant or cumulatively considerable environmental impacts. The project will not adversely affect a state scenic highway, cultural, natural, or historic resources, federal or state listed species or species proposed for listing, jurisdictional wetlands, or riparian zones. The project sites are located on an existing county road, and damaged structures and facilities will be restored or rehabilitated to meet current standards of public health and safety. The project will enhance fisheries habitat by reducing sediment input from failed culverts and stream crossings.

CEQA Class 1 Categorical Exemptions under Article 19 consists of the operation, repair, maintenance...or minor alteration of existing public...structures...involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination.

(d) Restoration or rehabilitation of deteriorated or damaged structures of facilities to meet current standards of public health and safety;

CEQA Class 2 Categorical Exemptions under Article 19 consists of the replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced.

(c) Replacement or reconstruction of existing utility systems and/or facilities involving negligible or no expansion of capacity.

No exceptions pursuant to Section 15300.2 of CEQA apply.
