Authorization to Enter Private Property

The Trinity County Planning Department as the lead agency performs the environmental evaluation for the California Environmental Quality Act (CEQA). Other State and local agencies also provide responsible and trustee roles under CEQA. The comments received from these agencies assist the Planning Department in preparing the environmental document for your project. In order for the Department to perform the evaluation on your proposed project we will need your permission to allow entry to your property for **Planning and any reviewing agency** that may need to actually view the property before providing comments.

By signing this authorization to enter your property you are granting the reviewing agencies access to your property for the purpose of evaluating your proposed project. The authorization is valid from the date the Department receives notice of your proposed project and any monitoring periods thereafter.

As the Property Owner, I hereby acknowledge that until final approval of the above application by the County of Trinity, no work such as grading, site development, infrastructure placement, tree removal, construction, trenching, operations or activities requested in this application will be allowed.
