

Bridge List Item Descriptions

BRIDGE NUMBER: The official structure number assigned by CalTrans. Clicking on the bridge number will launch a google map of the bridge. (Item 8)

DISTRICT: CalTrans state highway district number.

FEATURE INTERSECTED: A description of the feature intersected by the structure. (Streams, cross streets, railways, etc.) (Item 6)

FACILITY CARRIED: A description of the facility carried by the structure deck. (Roadway, railway, etc.) (Item 7)

LOCATION: A narrative description of the structure location. (Item 9)

NBI BRIDGE: NBI Bridge indicates the structure meets NBI definition of a bridge. NBI Under indicates that the structure does not meet NBI definition, however, a roadway under the structure is part of the Federal Aid System. Non NBI indicates the structure does not meet the definition of an NBI Bridge.

SD/FO: Indicates whether the bridge is structurally deficient (SD) or functionally obsolete (FO) according to FHWA criteria.

SUFF RATING: FHWA Bridge sufficiency rating. If the structure does not carry highway traffic it will not have a sufficiency rating.

HEALTH INDEX: The Bridge Health Index is a 0-100 numerical rating that utilizes element inspection data to determine the remaining asset value of a bridge. The HI for the bridge is the ratio of the current element value to the initial element value of all elements on the bridge.

PCI: The Paint Condition Index is a 0-100 ranking system that utilizes the current paint condition (called condition states) of the various painted steel elements of te structure.

YEAR BUILT: Year of original construction. (Item 27)

ADT: Average daily traffic on the deck of the structure. (Item 29)

LANES: Number of lanes on the deck of the structure. (Item 28)

ROAD WIDTH: Bridge deck roadway width, curb to curb (meters). (Item 51)

LENGTH: Length of structure (meters). (Item 49)

FEDERAL AID SYSTEM: On indicates the functional classification for the primary roadway on the structure is a federal aid highway. Off indicates the functional classification for the primary roadway on the structure is not on a federal aid highway. On/Off System classifications should be verified by using the California Road System (CRS) maps.

NHS HIGHWAY: On indicates the roadway is part of the National Highway System. Off indicates the roadway is not part of the National Highway System. On/Off classifications should be verified by using the California Road System (CRS) maps. (Item 104).

PERMIT RATING: Permit ratings are shown for information only. They should not be used for permit issuance. The permit rating is usually a string of five characters showing permit capacity for 5,7,9,11, and 13 axle vehicles. Where a single character is shown, it represents an "administrative" rating.

P Purple permit capacity

G Green permit capacity = 0.867 X Purple

O Orange permit capcity = 0.667 X Purple

X No permit capacity
