Weaverville, CA 96093  
(530) 623-1459

### DETAILED PLOT PLAN / SITE MAP

Plot Plan / Site Map must be DETAILED – MAP OUT DISTANCES in US feet from your proposed well or septic system to all structures (house, garage, sheds, greenhouses, etc.); List distances to property boundaries, roads, and any other significant land formations. Show distance between the well and the septic tank and the well to the leach field. Show the distance from well(s) and septic system to all waterways (even seasonal “ephemeral” waterways) traversing through or near the property. If your well or septic system is closer than 95 feet from your property line then you must show the distance from your septic system & well to neighboring wells & septic systems.

View the Trinity County Parcel Viewer to locate your parcel (there is a measuring tool) at:
