MANDATORY COMMERCIAL RECYCLING (MCR)

State law now requires all businesses and public agencies that generate 4 or more cubic yards of waste per week, and apartment communities/multi-family housing with 5 or more units, to recycle.

- Recycling may provide opportunities for your business to save money.
- Recycling helps conserve resources and extends the life of California's landfills. It also helps create a healthy environment for our community and future generations.

How to start recycling at your business/apartment complex:

1. Ask your employees/tenants to separate recyclable items from trash.
2. Arrange to donate, sell and/or for pickup of your recyclable materials with a hauler.

For additional information about commercial recycling, go to <https://www.calrecycle.ca.gov/Recycle/Commercial/>
